Town of Mountain Village
Community Survey 2010 Comment Report

Which of the following best describes you?	Do you have any further comments on your responses? Please rate your satisfaction with the following aspects of Mountain Village.
Business owner	Need more indoor recreational oportunities for bad weather days. rec center.
Business owner	There are too many sport shops. Beyond that there is a dirth of shopping opportunities.
Business owner	There is an extreme lack of shopping opportinities in Mountain Village. It all works in tandem, with more Leisure-time activities, more parks and more shopping people will come and spend more time in MV. This will int urn bring mroe Revenue to MV.
Business owner	We eed more trails esp. ones for riding bikes and hiking, also ones that connect the village core to the Meadows. We have too many places where you have to walk on the street because of lack of trails. When commercial entities build they should be required to put attractive pedestrian trails. We need more diversity of stores but that won't happen until we have a year-round economy. I wish we had a lap length swimming pool available for less than the Peaks. We could use a giant climbing wall. I would love to see lots more public art - temporary as well as permanent. Every building project should have to pay into a public art trust. Let's have more music, theater. Absolutely we need better playgrounds for kids! The playground by lift 1 is substandard, dangerous and embarrassing for a supposed world class resort. What happens with the money supposedly collected at the parking areas for recreation?
Business owner, seasonal resident/second-homeowner	Luminiar Resturant was a very good sushi resturant but it changed hands and went from good to terrible. There are no good places for local residents in Mountain Village.
Business owner, seasonal resident/second-homeowner	Tennis Facilities need improvement
Business owner, seasonal resident/second-homeowner	A better transportation Dial a Ride
Business owner, year-round renter	Continue building more trails & features on the mountain bike park. Build the rec center.
Business owner, year-round renter	Dog parks - since your cracking down on dog owners
Business owner, year-round resident homeowner	We NEED sidewalks on some of the residential roads (Double Eagle Drive, Russell Deive). It is VERY dangerous to try to take a walk or stroll a baby.
Business owner, year-round resident homeowner	We could use an indoor tennis facility. I suggest resurfacing the two lower courts and then putting a removable aluminum structure with a white skin cover (similar to DIA).
Business owner, year-round resident homeowner	Work with merchants to encourage more shops; More arts and cultural; more park development - tennis?
Business owner, year-round resident homeowner	Would like to see more recreational facilities and trails.
Business owner, year-round resident homeowner	Winter is fine, need more summer recreation
Business owner, year-round resident homeowner	Summer needs help!
Business owner, year-round resident homeowner	Need winter bands back in Heritage Plaza, need tubing hill back! Keep food carts and improve signage to all businesses. Jingle Jam sucks - make it bigger; add more. MV needs rec center. Bring Med Center from downtown to MV! The MV Market is WAY overpriced!
Business owner, year-round resident homeowner	Hotel rooms

Town of Mountain Village
Community Survey 2010 Comment Report

Which of the following best describes you?	Do you have any further comments on your responses? Please rate your satisfaction with the following aspects of Mountain Village.
Business owner, year-round resident homeowner	Village Mountain Market - 30-40% higher than City Market in Montrose. They were given concessions by town with promise to keep a price parity with City Market. Bike trail from Meadow to Market. Bus needs to stop at Shirana.
Seasonal resident/second-homeowner	Don't care much about shopping to be honest
Seasonal resident/second-homeowner	I'm very glad to have a grocery store in Mountain Village, but it doesn't seem to be well managed (lots of out-of-stock on common items) and whatever happened to the concept that pricing was going to match Montrose? They're more expensive than the Town of Telluride on things I've checked.
Seasonal resident/second-homeowner	It is great that Palmyra. Onyx. Suede the noodle restaurant, the now Telski operated and the remenued La Piazza provide such good and diverse food. Even more, (where Bistro Isabella was in Centrum) would be better.
Seasonal resident/second-homeowner	More open space, more reasonably priced dining, wider range of recreational all-year activities.
Seasonal resident/second-homeowner	NEED MORE RETAIL STORES ---MANY EMPTY SHOPS CURRENTLY --- NEED CREATIVE IDEAS TO GET MERCHANTS TO OPEN UP ---ADVERTISING AND FREE RENT?
Seasonal resident/second-homeowner	Need to increase the quantity of intermediate ski terrain.
Seasonal resident/second-homeowner	preserving open space is important. More reasonably priced food is important
Seasonal resident/second-homeowner	Restaurants and arts/cultural opportunities are more available in Telluride, so they are not inconvenient. Shopping is limited, but may be the best possible with the limited retail market,
Seasonal resident/second-homeowner	The Mountain Village Core is BETTER than any other Ski Core we had visited and was incremental in our decision to build our vacation home in this area.
Seasonal resident/second-homeowner	The shopping has been a little dissapointing in the last year and a half as many of the stores we used to visit have shut their doors. Just a sign of the times. Hopefully we can get some of those store fronts filled back up.
Seasonal resident/second-homeowner	There should be better walking trails and better access to them in the winter months for walking/hiking.
Seasonal resident/second-homeowner	I miss the variety of retail shops. We always shop at Boot Doctors, though.
Seasonal resident/second-homeowner	love the openness, quietness and ambiance of the Mountain Village. If you have a desire to do a rec activity, you certainly will find it. As far as shopping, sports equipment, sports clothing galore, but anywhere we can buy underwear in the Mt. Village? Dining opportunities are fine, but limited and same with arts/cultural opportunities....a show open parttime for in season?
Seasonal resident/second-homeowner	Mountain Village core is not known for great food...most go down to Telluride. I'm not talking about "fancy"...MV needs more delicious casual places to hang out. Maybe the new pizzeria place will be a plus - we hope so!
Seasonal resident/second-homeowner	Overall food quality poor at non-fine dining establishments.
Seasonal resident/second-homeowner	Residents passed a vote to have a community center built--it never happened, and I'm disappointed.
Seasonal resident/second-homeowner	The restaurants and shopping are very limited compared with the Town.
Seasonal resident/second-homeowner	Would like to see more dog-friendly hikes and areas.

Town of Mountain Village
Community Survey 2010 Comment Report

Which of the following best describes you?	Do you have any further comments on your responses? Please rate your satisfaction with the following aspects of Mountain Village.
Seasonal resident/second-homeowner	Mountain Village is a "suburb" of Telluride that functions well with an established town "neighbor. More amenities in TOMV are nice but not vital for the quality of life that drew/draw people there. There appears to be an obsessive drive on the part of town leadership to build what is neither sustainable nor in demand. Instead, TOMV leadership should guide and protect the community's growth so that it remains a haven in the mountains instead of a development-in-waiting.
Seasonal resident/second-homeowner	I prefer the out of doors to indoor entertainment/sports. If providing additional parks means preserving open space, I am in favor. I am in favor of green space.
Seasonal resident/second-homeowner	If you want families to come and stay in Mt Village, we need a playground and a sledding hill. The ice rink should have been open for the whole season, not staring March 24th.
Seasonal resident/second-homeowner	We enjoy this area for its natural amenities and prefer to see minimal development or growth.
Seasonal resident/second-homeowner	We like less rather than more. Our attraction to the area is its lack of commercialism and small numbers of people, coupled with accessibility to hikes and nature.
Seasonal resident/second-homeowner	The core is a dead zone after the mountain closes and permanent including day during summer
Seasonal resident/second-homeowner	Elk Pond should allow only 12 yr or younger to fish (with adult supervision)
Seasonal resident/second-homeowner	Need more children activities after ski lifts close - tubing
Seasonal resident/second-homeowner	Restaurants, in general, have just OK food, poor service, and high prices
Seasonal resident/second-homeowner	Need more winter activities other than skiing - snowmobile, dog sleds, ice skating, fishing
Seasonal resident/second-homeowner	Would love to see another restaurant come in where Isabella's was. Palmyra is great. Great food, decent prices, great views. I think the core is fun with the bungy and food and concerts/golf type carts for everyone to use for transport. Some walking areas need more snowmelt - snow removal people do a fabulous job!
Seasonal resident/second-homeowner	Wish that shopping was open in the evening and more activity in the core in the evening
Seasonal resident/second-homeowner	Getting better - thank heaven for Capella!
Year-round renter	I have wheat allergy and all I find is salads; it's expensive if you're a normal person with a normal job
Year-round renter	Grocery prices
Year-round resident homeowner	Build more bike & hiking trails
Year-round resident homeowner	The Core is a fun place to be on a busy ski day - need to replicate year-round. More overnight guests mean more activity means more financial stability locally
Year-round resident homeowner	Would like to see a rec center that includes and outdoor pool and work out equipment.
Year-round resident homeowner	would love to see more concerts, activities for families to bring more business and activity to the Mountain Village. Should coninue the Town of Telluride closing events in the Mountain Village at the end of ski season.
Year-round resident homeowner	Do not eliminate open space in the core for more development.

Town of Mountain Village
Community Survey 2010 Comment Report

Which of the following best describes you?	Do you have any further comments on your responses? Please rate your satisfaction with the following aspects of Mountain Village.
Year-round resident homeowner	I would love to see a walking path from the Meadows to the Adams Ranch/ Double Eagle/Russell/Mountain Village Blvd to the gondola. Every time I walk I feel like I am going to get hit by a car with all the blind curves. I would love to see a community style rec center. I wish the stores were not so geared price wise to the tourists/second home owners
Year-round resident homeowner	MV would benefit from some lower cost dining opportunities and more varied retail.
Year-round resident homeowner	The dining opportunities continue to grow in the winter time, but shoulder season it is non existent and summer is doubtful at best!
Year-round resident homeowner	Want library return box. Want sidewalks for walking safely out of traffic, Want affordable shopping, arts, and leisure activity, want parks with playgrounds and gathering places. Want swimming and bowling... Dogs on leash in town limits. Less dog barking heard off property.
Year-round resident homeowner	We need a rec center! I just spent time in Durango for two days, that would have been spent here if we had a rec center.
Year-round resident homeowner	We need more summer recreation
Year-round resident homeowner	Would love good quality affordable restaurant - Mexican, Thai
Year-round resident homeowner	Needs indoor facility for kids
Year-round resident homeowner	Do more events! Concert area! Better quality bands.
Year-round resident homeowner	Plaza space that is more user-friendly
Year-round resident homeowner	A community rec center with POOL is needed! Maybe even with a library attached, with kids' activities.
Year-round resident homeowner	Quality of restaurants and dining bad - do not need more, need better
	Need a rec center/swimming! Need more parks!
	We need an affordable rec center!
	Need more GOOD restaurants
	Too many vending carts
	More recreation opportunities
	I think the options for all of these are very limited and adding more of these establishments would add a sense of life and vitality
	Please don't bring in more development
	A book store!
	I just wish there were more restaurants in the Village that were open later and during the off season.
	i think it is a bit of a problem that the evening is very empty. Perhaps it needs a few more bars to get people to stay instead of going to telluride
	More parks for kids are needed
	Need to generate more year round dining options; hot-beds and non-skiing recreation seem like the way to attract corporate events during the off-season to enable viable restaurant operations.
	quality of opportunities....some of the restaurants are costly, small portions and nothing special for taste.
	Stores should stay open later in the evening during ski season;
	While MV's recreational opportunities are many during the winter & summer, off-seasons and non-skiing activities need to be explored. We should also strive to provide more arts/culture/other leisure opportunities
	Suggest another on-mountain restaurant by Chair 5

Which of the following best describes you?	Do you have any further comments on your responses? Please rate your satisfaction with the following aspects of Mountain Village.
	need more take out and delivery options for restaurants

Which of the following best describes you?	Do you have any comments or suggestions concerning town staff and/or departments?
Business owner	Let's focus on "customer service" model - we are a resort town afetr all. Why should government in a town that is busy mostly on weekends keep usual M-F work days? Most MV employees are nice, smart and helpful. Maybe let them be more involved in figuring out how to have less government and more service orientation? Less emphasis on making new regulations; more emphasis on being friendly and encouraging visitors. Less tickets. NIcer sign at entrance than "DO NOT PARK ON ROADS" as the first impression as one enters!
Business owner	The Mayor is great!
Business owner, seasonal resident/second-homeowner	Snow removal on Mt. Village Blvd. is excessive and waste of money. They are on the road when there is no snow.
Business owner, seasonal resident/second-homeowner	The staff has always been friendly and helpful through the years.
Business owner, seasonal resident/second-homeowner	Having an excavation permit in the process to do site preparation and driveways without having to build the entire project at least on smaller projects
Business owner, seasonal resident/second-homeowner	Everyone is available by phone, and helpful!
Business owner, year-round resident homeowner	Gov @ there own speed with business down, carts are not the answer
Business owner, year-round resident homeowner	Please enforce the no smoking laws detailed on smokefreecolorado.org. Parking tickets are too expensive.
Business owner, year-round resident homeowner	Your phone system is horrible - have a person answer
Business owner, year-round resident homeowner	They need help
Business owner, year-round resident homeowner	Call Scott MacIntyre about plow truck running stop signs (no response back)
Seasonal resident/second-homeowner	DRB process is very unsatisfactory
Seasonal resident/second-homeowner	have attended a few meetings, and all have been friendly and helpful.
Seasonal resident/second-homeowner	Have not had an opportunity to interact.
Seasonal resident/second-homeowner	I applaud the town government for all their efforts. When I think about improvement I don't see a need to complete with Telluride Town so shopping/retail isn't a need for me. Again I feel that trail signage is important along with Parks for the kids.
Seasonal resident/second-homeowner	I believe that the town caters to TSG first and the residents second. Mountainn Village has not found a way to balance the resort presence with the thier responsibilities to the residents and voters.
Seasonal resident/second-homeowner	I have not had personal experience interacting with the town staff. I am impressed with the outreach.
Seasonal resident/second-homeowner	Is the DRB town staff? I do not approve of the DRB.
Seasonal resident/second-homeowner	Libby and everyone else in the utilities department are outstanding. Their service delivery is amazing!
Seasonal resident/second-homeowner	Libby in the MV Cable department is super!
Seasonal resident/second-homeowner	Need for strict adherence to DRB architectural regulations and no parking rules on roads in MV.

Which of the following best describes you?	Do you have any comments or suggestions concerning town staff and/or departments?
Seasonal resident/second-homeowner	The absurdity of having critical services and funding thru the TMVOA must be addressed when the time is ripe and these should be consolidated into the Town government
Seasonal resident/second-homeowner	The TOMV staff and overall operation have become more professional. It is good for the town's growth and development to let go of the cornyism of past family-driven adminstrations.
Seasonal resident/second-homeowner	There is a tendency to run away from tough questions regarding covenant questions and favor longer term residents regarding covenat questions.
Seasonal resident/second-homeowner	There is already more than enough town staff and departments. I would be opposed to expanding either one.
Seasonal resident/second-homeowner	Use town dollars, not HOA dollars, for public benefit. HOA dollars for for HOA expenses.
Seasonal resident/second-homeowner	When I needed access to the village core, my requests were met with a high degree of professionalism. The Town was very helpful.
Seasonal resident/second-homeowner	It seems that the 2 distinctive governments are overkill and seem to not be very cooperative
Seasonal resident/second-homeowner	Pretty incompetent. Can't depend on regular garbage pickup. Spotty cable modem service. Can't even get all services handled on one bill.
Seasonal resident/second-homeowner	Good service!
Year-round renter	Very diffuicult to get a person when you call for assistance. If you just want to speak to someone you can't. You have to know an extension, name or department. What if you don't know a name, extension or department-- you are out of luck. If you do leave a message it may be a day to a week before someone gets back with you. Those is some departments do not know much about the services offered. I was told and given one kind of service and then informed later that it was incorrect and my service was taken away. Not very helpful in some departments.
Year-round renter	Bear/trash control
Year-round renter	We need a better way to know the town staff
Year-round resident homeowner	; The town’s staff acts like a private entity that really does not care about business owners or home owners. The only driving force is the greed of development.;
Year-round resident homeowner	Generally friendly, but no clear sense that my issues or concerns are taken seriously.
Year-round resident homeowner	HD Cable needs to include network stations.
Year-round resident homeowner	Hire happy people, not grumpy ones
Year-round resident homeowner	I believe the town is well managed and fiscally responsible.
Year-round resident homeowner	My comment refers to the prior page regarding speed of traffic. Do you mean is traffic speed slow or fast for drivers or are you asking if there is too much speeding. I particularly believe there is too much speeding.
Year-round resident homeowner	Need better care of Meadows post office, Meadows sidewalk, and cleanliness of shuttle buses.
Year-round resident homeowner	Town manager needs to provide a better vision and follow through with staff and present concept to the town council to move forward. seems sometimes like the line staff runs the operations of the management. Need to provide vision and leadership and set the bar high and lead by example.
Year-round resident homeowner	Town staff seems to lack leadership. Approach is shifting from proactive to reactive.

Town of Mountain Village
Community Survey 2010 Comment Report

Which of the following best describes you?	Do you have any comments or suggestions concerning town staff and/or departments?
Year-round resident homeowner	Why does management allow 4-day workweeks?
Year-round resident homeowner	Town manager and town mayor redundant, too many layers of governance
Year-round resident homeowner	Join all town govt. and HOA together- rather than seperate enities
Year-round resident homeowner	The town phone menu is a pain when you don't know the last name or department of the staffer
Year-round resident homeowner	Too many layers of governance - eliminate mayor or mgr.
Year-round resident homeowner	More homeowner's info/email
	A little hard to get a live person on the phone, the times I've tried.
	Building department could improve on its communication with residents
	Issues relating to affordable housing have not been adequately addressed in this community
	My interaction with the city staff has been minimal. mostly Dial a ride and utilities.
	Town staff appear to advance their own agenda on topics presented to council, and code enforcement is uneven. A good example is the code requirement for large street numbers to be displayed. I complied, at not insignificant cost, yet even THE FIRE STATION and TOWN HALL does not display code compliant street numbers! This is but one example of how a reasonable request (to display street numbers) is expanded to something out of control (To display street numbers that are overly large, distracting and unsightly) and yet not enforced! Similar topics are recycling, landscaping, and now the issue of 'forest health'!!! More is not better. Don't create and modify Town Code, without realistic enforcement!
	Have the mayor out speaking more in public; don't really know much about our leadership.
	Get involved with the Latino community

Which of the following best describes you?	Why don't you recycle paper, tin, glass, plastics? (other)
Business owner	Don't believe items are actually recycled
Business owner, year-round resident homeowner	Dumps
Business owner, year-round resident homeowner	No recyclables used
Business owner, year-round resident homeowner	Why penalize people who want to recycle? Cost should be charged to those who don't recycle.
Seasonal resident/second-homeowner	The 2 places I own do not offer that service
Seasonal resident/second-homeowner	Not available in plaza
Seasonal resident/second-homeowner	Separate containers NOT provided
Seasonal resident/second-homeowner	Was not picked up regularly
Seasonal resident/second-homeowner	Possibly have central locations to take cans, plastics etc. like at gondola area
Seasonal resident/second-homeowner	Cost was the reason at one point - but really don't currently know anything about the program
Seasonal resident/second-homeowner	1 trash can
Year-round renter	I recycle everything they'll take; sometimes it's overflowing and there's no space for mine
Year-round resident homeowner	Not available at Vill. Court apts.
Year-round resident homeowner	Haven't picked up containers yet

Which of the following best describes you?	Are there other recreational amenities and programs not mentioned above you would like to see added?
Business owner	beginner level bike trail with training elements for beginner mountain bikers.
Business owner	More Outdoor opportunities like ziplines and alpine slides. Activites that are not offered anywhere else in the region and will attract people to Mounain Village.
Business owner	movies
Business owner	Zip line
Business owner, seasonal resident/second-homeowner	Guided nature and climate change education
Business owner, year-round resident homeowner	less steep uphill biking trails to the top of the Gondola
Business owner, year-round resident homeowner	Just do something - new things attractions
Business owner, year-round resident homeowner	Downhill mountain bike trails
Business owner, year-round resident homeowner	Let's put more pressure on Telski to help donate rec center land! Look at Durango's center and follow their model, Cortez too
Business owner, year-round resident homeowner	Hockey rink
Seasonal renter	Better single track mountain biking options. Bike lane on 145.
Seasonal resident/second-homeowner	As secondary homeowners, we enjoy what Telluride has to offer in terms of enjoying the natural outdoors. We do golf in the summer, but we play tennis all year round at home, work out etc. We love being in Telluride each season for a nature reality check. However if amenities and programs are added, realistically, they need to be paid by the user....am in favor of having these amenities open to all who stay in the Mt. Village, if we proceed. The homeowners cannot sustain everything.
Seasonal resident/second-homeowner	better bike trails -- preferably paved
Seasonal resident/second-homeowner	Expand biking trails
Seasonal resident/second-homeowner	i am telski member so i have alot of above services thru the peaks
Seasonal resident/second-homeowner	Mountain Village is a mountain resort town. Keep it that way. Water facilities are expensive to maintain.
Seasonal resident/second-homeowner	Movie theater (IMAX), Core grocery/convenience store, Chnese/Indian/Thai food
Seasonal resident/second-homeowner	raquetball would be more cost effective than indoor tennis
Seasonal resident/second-homeowner	Tubing
Seasonal resident/second-homeowner	We are here for nature's amenities, not man made amenities. Preserve what we have by restricitng growth rather than adding facilities.
Seasonal resident/second-homeowner	A walkable trail to Core from Meadows area
Seasonal resident/second-homeowner	Indoor facilities during winter
Seasonal resident/second-homeowner	None of this is important. WE LIVE ON A MOUNTAIN! Who would use this?!
Year-round renter	Indoor areas for toddlers
Year-round renter	More for young children
Year-round renter	Zipline park, bike trails and races/competitions, outdoor climbing
Year-round renter	Ensure recreation easements for future

Which of the following best describes you?	Are there other recreational amenities and programs not mentioned above you would like to see added?
Year-round renter	A park
Year-round renter	Outdoor equipment library
Year-round renter	More mountain biking
Year-round renter	Not just "downhill" mountain bike trails - XC trails
Year-round resident homeowner	drop in child care.
Year-round resident homeowner	I think what we have now is cost prhibitive to year round residents
Year-round resident homeowner	Indoor year around ice skating facility incorporate with full recreational facility.
Year-round resident homeowner	Paved sidewalks for year around accessibility.
Year-round resident homeowner	Rec Center
Year-round resident homeowner	Improved sidewalks/paths
Year-round resident homeowner	Ice climbing
Year-round resident homeowner	Nordic
Year-round resident homeowner	It would be SO awesome for the community to have a recreation center
Year-round resident homeowner	Holistic mind/body education
Year-round resident homeowner	Horsetrails? summer
Year-round resident homeowner	None - Mt. Village is a rec center
	A more developed & better maintained Nordic facility
	Amenitites and programs I don't want more taxes to pay for things I will never use.
	More concerts and other events, winter and summer
	NO
	summer concert series
	More activities leveraging the mountain and gondola e.g. expanded mountain biking for all levels
	Trails should not be in open sun. Through trees would be best. It is too hot in summer in the sun.
	Soccer fields indoors

Which of the following best describes you?	Do you have any comments or suggestions concerning police services in the town?
Business owner	Access over the pavers is an inconvenient neccessity for land locked businesses. Obviously safe driving is required. But deliveries have to happen during business hours.
Business owner	More emphasis on guest service and customer service style relations rather than enforcement.
Business owner	police need training on 4th amendment to the US constitution!
Business owner	Get rid of the horse to save money!
Business owner, seasonal resident/second-homeowner	Too many tickets for parking and this discourages visitors from returning.
Business owner, seasonal resident/second-homeowner	Police were slow to respond to bear in driveway
Business owner, seasonal resident/second-homeowner	I don't think police should be handing out tickets like a bunch of starving wolves!
Business owner, seasonal resident/second-homeowner	Charging for lower parking lots has added duress to tenants and visitors
Business owner, year-round renter	accessablity for persons with disablities is very poor, e.g., the lack of handicap parking spaces in close proximity to businesses
Business owner, year-round resident homeowner	I live in the Boulders and the entrance is a mess! This needs to be addressed! There is a fire lane hazard because the commercial business park along the entrance and many times nearly block the access to our homes! A fire truck could not get through when the cars are parked there! Please address this this summer! Please enforce "no Parking" along the planter at the narrow part of the entrance! Please fix the road surface!
Business owner, year-round resident homeowner	There are a few good officers but Jerry is terrible and rude to both residents and visitors
Business owner, year-round resident homeowner	Bikes patrols
Business owner, year-round resident homeowner	Too many traffic codes
Business owner, year-round resident homeowner	Concerning death notifications - more qualified personnel. Not a rookie foot patrolman.
Business owner, year-round resident homeowner	The Meadows is neglected for moving violations - running of stop signs, speeding, etc.
Seasonal renter	I dont believe i have ever noticed a security person in MV.
Seasonal resident/second-homeowner	Excellent police department.
Seasonal resident/second-homeowner	Excellent police department.
Seasonal resident/second-homeowner	Great people on our police force.
Seasonal resident/second-homeowner	I have been tailed by the police returning home late at night several times and once pulled over accussed of DUI 50ft from my driveway when I was totally sober and aware of being followed by the police. I find these practices predatory and inappropriate.
Seasonal resident/second-homeowner	I have not seen any crime. My interaction with the police have been very nice. Nice balance.
Seasonal resident/second-homeowner	important to respond to late night noise in village core

Which of the following best describes you?	Do you have any comments or suggestions concerning police services in the town?
Seasonal resident/second-homeowner	It is EXCELLENT that the MV Police are always visible on the main roads as a deterrent to speeding and crime.
Seasonal resident/second-homeowner	no speed traps please!!!
Seasonal resident/second-homeowner	Police should take a more proactive role in noise issues within the core, particularly the bars and restaurants (hop garden, etc.)
Seasonal resident/second-homeowner	Police speed traps should be outlawed!!!! We should not be discouraging tourists and out of towners from returning.; The speed limit can be increase a little bit more. It is ridiculous to go through town at snail pace!!!
Seasonal resident/second-homeowner	they must be doing their job, because I feel safe in the Village.
Seasonal resident/second-homeowner	We feel safe, but I have never seen a policeman in MV, ever, in 19 years.
Seasonal resident/second-homeowner	Would like to see better enforcement of parking violations
Seasonal resident/second-homeowner	Glad to have speed bumps on Adams Ranch Rd. in Meadows area
Seasonal resident/second-homeowner	Police are a little too serious about their jobs
Seasonal resident/second-homeowner	Parking enforcement seems to favor construction over residents and guests
Seasonal resident/second-homeowner	I had to call the police this winter late at night (a noise issue) and the dispatcher asked if I'd like them to call me and I never got a response.
Seasonal resident/second-homeowner	Quit writing traffic tickets except in EXTREME cases - why piss off visitors
Seasonal resident/second-homeowner	Pretty much a "good ole boy" department
Seasonal resident/second-homeowner	Parking is a real issue and tickets are too easy to get
Seasonal resident/second-homeowner	Traffic/speed control at exit/entrance to Village operates like a speed trap. Raise limit; give warnings; quit running off visitors/customers.
Year-round renter	Friendliest police department. Always accommendating. Easy to access.
Year-round renter	Wonderful!
Year-round renter	Have a drunk driving warning at bars etc.
Year-round resident homeowner	Animal Services - maybe the wrong place, but there are almost no dog pooh "stations" (bags and cans)on our trail system, winter or summer
Year-round resident homeowner	Appreciate the "resort" minded attitude, very helpful in non traditional police services
Year-round resident homeowner	Chris Broady and his staff perform/ provide a professional and courtious service to the community.
Year-round resident homeowner	Need more enforcement of parking, bicycling through core, and dogs off leash in core. I support dogs on leash if they are off their own yard throughout town. Sidewalks and ample bus stop space off-road would increase safety. More lighting of pedestrian area ie: chondola access when there is no shuttle bus offered.
Year-round resident homeowner	Thank goodness I haven't had to use them for anything! They are all very friendly.
Year-round resident homeowner	Thank you for your efforts.
Year-round resident homeowner	too heavy handed with parking and dog tickets
Year-round resident homeowner	Very impressed. Even when they correct you they are polite. The right attitude for a tourist town.

Which of the following best describes you?	Do you have any comments or suggestions concerning police services in the town?
Year-round resident homeowner	Remove the stop signs on Mountain Village Blvd. at Capella. Use common sense before giving a ticket for parking on street that clearly affects no one except the POLICY!
Year-round resident homeowne	Roaming dogs must be addressed in the Meadows and the core
Year-round resident homeowner	It was great to have police presence at sunset concerts
Year-round resident homeowner	Our interactions have been very positive
Year-round resident homeowner	Too much radar on MV Blvd.
Year-round resident homeowner	Love the horse
	During the ski season, many day skiers use grocery store parking all day and don't seem to be ticketed
	I think they are too visible. Everytime I turn around there is a police car. Do we really need all of that. It has a big brother is watching feeling that I don't care for.
	I would love to see dogs at large controlled if possible
	It seems like there are a lot of cars speeding on Mtn. Village Blvd. Also, I really like seeing Comanche out in the Village!
	There are more dogs in MV and Telluride than any other place I have been. My problem is they are in the stores, at the entrances of the stores and restaurants .... sometimes jumping up on people and sticking their noses upon people. I wish people would "tame" their pets.
	Great officers who are visible and friendly; very reassuring to full time residents when the off-season ghost town appears.

Which of the following best describes you?	Do you have any comments or suggestions concerning Dial-A-Ride?
Business owner	I haven't used it lately.
Business owner	I think we coulod charge a small fee for it.
Business owner	scrap on demand service and go with bus pick ups at scheduled times... save money!
Business owner	Shorten hours to save money
Business owner	Dial a Ride drivers are sometimes not friendly - very bad for tourism
Business owner, seasonal resident/second-homeowner	During Peak seasons - we should have more vehicles to service the riders
Business owner, seasonal resident/second-homeowner	Too much money is spent on this program. It should be reduced.
Business owner, seasonal resident/second-homeowner	Would be more utilized if stationed at core locations at peak times (i.e. at end of ski day)
Business owner, seasonal resident/second-homeowner	Don't cut back - we all need it - add more drivers during peak times
Business owner, seasonal resident/second-homeowner	Too costly. People abuse the free service.
Business owner, seasonal resident/second-homeowner	Add vehicle during high season
Business owner, seasonal resident/second-homeowner	Less service, people should use chondola if open
Business owner, year-round renter	I was turned down because I wasn't a homeowner
Business owner, year-round resident homeowner	do not eliminate dial a ride
Business owner, year-round resident homeowner	don't get rid of it!
Business owner, year-round resident homeowner	It isn't necessary. It's an expensive "EXTRA" that is not needed. If we as a community need to cut back on our expenses, I would recommend eliminating this service.
Business owner, year-round resident homeowner	No - but in regard to the Chondola I would like to see that run the same schedule as the Gondola! We (meadows owners) pay the same as everyone else for the transportation system but get "shut-down" on the late spring- summer - fall! Perhaps cut back the bus service to the meadows and open the Chondola!
Business owner, year-round resident homeowner	Please keep this service.
Business owner, year-round resident homeowner	Go back to full time!
Business owner, year-round resident homeowner	Hope you can keep it - don't use often but handy to have
Business owner, year-round resident homeowner	Is this a town function or HOA
Business owner, year-round resident homeowner	Keep up the great work
Business owner, year-round resident homeowner	It's a wonderful service! and very important to the sale of neighborhood real estate and rentals.

Which of the following best describes you?	Do you have any comments or suggestions concerning Dial-A-Ride?
Business owner, year-round resident homeowner	I have been waiting a lot
Business owner, year-round resident homeowner	Keep it
Business owner, year-round resident homeowner	Stay open for off season
Business owner, year-round resident homeowner	Not free - pay by HOA
Business owner, year-round resident homeowner	$3 per ride charge
Business owner, year-round resident homeowner	Big Billie's and Telluride Apartments - I see they have been getting service, is that allowed?
Seasonal resident/second-homeowner	A fantastic service. Older children use it to get around and meet up with family. It's great emergency back up. I don't think paying per ride is good in case the person doesn't have any money with them. It could be charged to an acoount. I wouldn't want a monthly fee as there are years when we are there in Mountain Village for only several weeks, others when we are there for months. We already pay for lots of services, like buses, that we don't ever use.
Seasonal resident/second-homeowner	A very important service that should be maintained.; There has been a tendency in recent years for drivers to expect to be tipped. This should be discouraged by the staffl
Seasonal resident/second-homeowner	Be more focused about who may use this service. This service is funded through our property taxes and is very importnat to second home owners.
Seasonal resident/second-homeowner	Charge for this service. People expect free parking....not free private transportation
Seasonal resident/second-homeowner	Dial a ride is an integral part of life in Mountain Village. The cuts this year have really been felt. Dial a ride was a big factor in our decision to purchase our home here and must remain the way it had been before the cuts.
Seasonal resident/second-homeowner	Dial a ride should not be cut back.
Seasonal resident/second-homeowner	Do not cut back on this service. It is a significant amenity which provides safe transport for skiers and diners, year round.
Seasonal resident/second-homeowner	Do not cut DAR. It is a big component of the value of our community.
Seasonal resident/second-homeowner	Encourage residents not to call for a ride until they are actually ready, and not still blow drying their hair or getting dressed. Limit the amount of time the Dial-A-Ride driver should wait for someone to avoid delying rides for others, especially when only two cars are running.
Seasonal resident/second-homeowner	great service
Seasonal resident/second-homeowner	I am APPALED that as a resident, using this FREE service, we are not allowed to give a gratuity to the driver and even more, the driver can be terminated for accepting a gratuity. Whoever caused this action to be put in place should be FLOGGED!
Seasonal resident/second-homeowner	I have never used it.
Seasonal resident/second-homeowner	I think the drivers are wonderful and wonder if at Christmas more drivers could work. Also I think we should be able to tip them as they're so helpful.
Seasonal resident/second-homeowner	I think you need to figure out a way to charge frequent users or visitors something nominal to keep the service "whole". The p/t home owners are carrying a disproportionate share of the costs.
Seasonal resident/second-homeowner	Need to increase efficiency of this service. All too often, drivers wait for riders who never appear, but refuse to take others who have been waiting.

Which of the following best describes you?	Do you have any comments or suggestions concerning Dial-A-Ride?
Seasonal resident/second-homeowner	Needs a closer drop off point to gondola.
Seasonal resident/second-homeowner	never used the service
Seasonal resident/second-homeowner	NOT SURE WE CAN AFFORD GOING FORWARD --- MAYBE FEE BASED RIDES?
Seasonal resident/second-homeowner	Please shut this service down or charge for it. Free parking near the core is much more importatnt to the success of MV.
Seasonal resident/second-homeowner	THEY ARE GREAT!! One of the best things available!!
Seasonal resident/second-homeowner	This does not work well at peak times especially before ski school in the morning, as for paying for Dial-a-ride, I would not due to the huge local taxes I already pay
Seasonal resident/second-homeowner	We have never had a bad experience with personnel. We've had long waits, but during the busy season which is expected. It is a convenience when we do not visit Telluride with a car.
Seasonal resident/second-homeowner	We rarely use it
Seasonal resident/second-homeowner	We stopped using it because the wait times were too long and a couple of the drivers were less than pleasant to "part time" residents.
Seasonal resident/second-homeowner	When it gets busy, the dispatchers get cranky. Some of the vehicles, especially the suburban often have a strong smoke smell. I am unclear if the drivers expect tips or not.
Seasonal resident/second-homeowner	A very nice amenity
Seasonal resident/second-homeowner	Need a dropoff closer to the Beech Area
Seasonal resident/second-homeowner	Charge $1/ride to give it value
Seasonal resident/second-homeowner	Keep it going
Seasonal resident/second-homeowner	New management. Call center people are rude!
Seasonal resident/second-homeowner	Should come out of general revenues
Seasonal resident/second-homeowner	Please keep it
Seasonal resident/second-homeowner	Users should pay per ride
Seasonal resident/second-homeowner	Should not be "free"/funded by residents. A small fee should be paid by riders.
Seasonal resident/second-homeowner	Great service
Seasonal resident/second-homeowner	Services should remain available thru all periods gondola is in operation
Seasonal resident/second-homeowner	Make it pay for service
Seasonal resident/second-homeowner	If you call when you are ready sometimes told 30 minute wait, after 30 minutes still waiting. Is it possible to schedule a pickup at a specific time? A day before, an hour before? Re: fees, residents/owners should not have to pay, guests/visitors should pay.
Seasonal resident/second-homeowner	Great service for residents and guests

Which of the following best describes you?	Do you have any comments or suggestions concerning Dial-A-Ride?
Seasonal resident/second-homeowner	Love it
Seasonal resident/second-homeowner	More cars
Seasonal resident/second-homeowner	Don't we pay $40/month for this?
Seasonal resident/second-homeowner	Free - or paid by homeowners? I feel like we do w/dues.
Seasonal resident/second-homeowner	Service used to be prompt - now very often 30 minute wait time
Seasonal resident/second-homeowner	Great service when needed
Seasonal resident/second-homeowner	Charge for service
Seasonal resident/second-homeowner	For residents only
Seasonal resident/second-homeowner	Keep it!! Don't reduce operations.
Seasonal resident/second-homeowner	Critical service for 2nd home owners and guests; minimizes car traffic in core
Seasonal resident/second-homeowner	A great ecological service!
Seasonal resident/second-homeowner	Phone operators are rude!
Seasonal resident/second-homeowner	More drivers and cars in peak times
Seasonal resident/second-homeowner	Great amenity; available quickly; nice people
Seasonal resident/second-homeowner	Keep it going during off season
Year-round renter	We are so spoiled!
Year-round renter	Many of my clients complained a lot about timeliness/punctuality
Year-round renter	Will not service to V.C.A.
Year-round renter	Enough drivers for holidays
Year-round resident homeowner	Don't get rid of it, but drivers should be allowed to accept tips and this would help with their income.
Year-round resident homeowner	Feel this is a great asset to have.
Year-round resident homeowner	High priority for this community.
Year-round resident homeowner	I believe the service is unnecessary and could be accomplished with a bus system.
Year-round resident homeowner	If I have to pay, I would drive. That defeats the purpose.
Year-round resident homeowner	Keep it. it is a valuable service and make MV unique. It is an important competitive differentiating factor versus other resorts.
Year-round resident homeowner	Most often all of the employees/ drivers are friendly knowledgable and courteous. sometimes the dial a ride answering agent cannot get accurate or specific ride times and sometimes shares a bad attitude. For the most part they are all good.
Year-round resident homeowner	Not eco-friendly -should be served by flex shuttle routes. Drivers should have a clear safety panel behind them, and maybe security cameras. Dial-A-Ride paid by taxes is transportaing illegal aliens from Telluride Apartments.

Which of the following best describes you?	Do you have any comments or suggestions concerning Dial-A-Ride?
Year-round resident homeowner	There are certain times of the year when the staff and number of cars should be increased. Maybe a few on call staff for Christmas,spring break,summer festivals because it is really slow and unreliable during these times.
Year-round resident homeowner	This is NOT a town government function - tax dollars should not be spent on this program.
Year-round resident homeowner	Well run considering the budget constraints.
Year-round resident homeowner	Already pay thru HOA dues
Year-round resident homeowner	It is a great service - keep it going
Year-round resident homeowner	Keep it going!
Year-round resident homeowner	Keep it running longer
Year-round resident homeowner	A valuable amentity
Year-round resident homeowner	Great system
Year-round resident homeowner	Very important service
Year-round resident homeowner	I've heard a story or two on some unsavory driver behavior with young women
Year-round resident homeowner	Noticeably worse than before
Year-round resident homeowner	Charge per use. Quit using "free" - not to me! Use subsidized.
	As a resident I love Dial-A-Ride and hope we continue to have it.
	I thought we did pay for Dial-a-ride already, through our taxes.
	I would be willing to pay a small fee for dial-a-ride service -- per ride not monthly
	I'm not a big fan of using tax and mvoa fees for dial a ride.
	It sucks that Dial-A-Ride doesn't provide access to Big Billes and Village Court.
	Please stop asking if we are owners or renters when we call. And how often we are using the house. If you ask every time we call you are not getting a good sampling of numbers. Send out one survey to everyone if you need feed back on housing. Otherwise it's none of your business!
	Scheduled routes during peak times; better drop off in MV core, near chair 4.
	the dial a ride is great - but sometimes it takes a long time to arrive - it should never be more than 15 minutes. If it was a service with a fee, it should not make more than 2 stops.
	The elimination of shoulder season service is unfortunate. One of the reasons we chose Mountain Village as our year-round home was this service. We wrote the 3% fee and then the service was cut. I understand reduced staffing during the off-season, but no service is not fair to those of us who wrote a pretty big check to the city assuming this service was included
	Keep it year round
	Dial a Ride should be for everyone

Which of the following best describes you?	Do you have any comments or suggestions regarding bus service?
Business owner	charge riders
Business Owner,	Wish we had service to Lawson Hill.
Business owner, seasonal resident/second-homeowner	Never knew it existed or what its schedule is/was.
Business owner, year-round renter	be available during ski season
Business owner, year-round resident homeowner	add another shuttle in summer so it runs every 20 minutes
Business owner, year-round resident homeowner	Again - open the Chondola year round like the Gondola.
Business owner, year-round resident homeowner	Again...not needed. Residents can be responsible for their own transportaion. It's an additional cost to the community that is not necessary
Business owner, year-round resident homeowner	Almost too many stops in the meadows...
Business owner, year-round resident homeowner	I don't use the bus.
Business owner, year-round resident homeowner	I prefer to use the Chondola to get from the meadows to MV. I would rather see a cut back on the bus schedule and run the Choldola year-round like the Gondola. We pay for it - why not run it?
Business owner, year-round resident homeowner	some drivers don't treat the visitors well
Business owner, year-round resident homeowner	there are a couple of drivers who I've witnessed being rude to visitors
Business owner, year-round resident homeowner	Maybe we should be internal only, need to cordinate with town bus better
Business owner, year-round resident homeowner	Routes should be reexamined, too much overlap, use entrance
Business owner, year-round resident homeowner	They won't stop at my street
Business owner, year-round resident homeowner	Meados bus should stop at Peaks stop
Seasonal resident/second-homeowner	A fee would also be reasonable.
Seasonal resident/second-homeowner	CAN NOT AFFORD --- FEE BASED SERVICE
Seasonal resident/second-homeowner	Charge for this service. Most cties do.
Seasonal resident/second-homeowner	Have never had the need to try the service.
Seasonal resident/second-homeowner	I am not so sure if this is a worthwhile service to fund.
Seasonal resident/second-homeowner	I don't even know what routes it services. I see it at the Town Station gondola, but no idea where it goes from there.
Seasonal resident/second-homeowner	I have never utilized the bus service. Perhaps if there were laminated schedules placed in multiple highly visible locations, bus service could be utilized in some cases instead of Dial-a- Ride.
Seasonal resident/second-homeowner	I only use the bus when the gondola is closed. It's after 11 pm service is inconvenient.
Seasonal resident/second-homeowner	I've been a homeowner for nearly 6 years and never used, nor do I know how to use any bus system there.
Seasonal resident/second-homeowner	I've never understand this service so never have used it.

Which of the following best describes you?	Do you have any comments or suggestions regarding bus service?
Seasonal resident/second-homeowner	need more frequent service to be useful
Seasonal resident/second-homeowner	never used
Seasonal resident/second-homeowner	Never used the bus
Seasonal resident/second-homeowner	Not convenient for private residences
Seasonal resident/second-homeowner	Pleas charge for this service. People will pay and should pay for this service.
Seasonal resident/second-homeowner	The buses and the the gondola are a VERY important part of the experience in Mountain Village. It is extremely important to maintain them at a high level. I do not want to rent a car or drive while I am in Telluride. It also helps support the guided trips and other tourist operations. If you had to rent a car you would be less likely to hire a guide to fish or hike. They have the cars
Seasonal resident/second-homeowner	The stop is literally outside my home. As such, I would use this even more than Dial a Ride, especially in the winter if it was offered.
Seasonal resident/second-homeowner	There should be a fee for riding. Residents could buy a yearly pass.
Seasonal resident/second-homeowner	Stop it
Seasonal resident/second-homeowner	A real plus
Seasonal resident/second-homeowner	Users should pay per ride
Seasonal resident/second-homeowner	Have no idea how to use bus service!
Seasonal resident/second-homeowner	Charge for use
Seasonal resident/second-homeowner	Not useful in single family areas
Year-round resident homeowner	Busses are not as clean as they should be. Would prefer a bus system throughout the community and use the savings from DAR to fund more essential services.
Year-round resident homeowner	Every 15 minute service to/from the Meadows would increase ridership and decrease personal driving and parking, at least during "rush hour". People don't want to wait longer than it takes to call dial-a-ride, or ride a dirty bus when they can ride clean dial-a-ride. Shuttle buses should be clean -comparable to dial-a-ride. Bus waiting/boarding should be off-road and safe -on a hard surface. Buses should stay on hard surface so as not to blow dust onto boarding passengers and for traffic safety. Hard surface waiting and boarding would help keep passengers and buses clean. I support bus stops at any corner on the route. Passengers don't like to wait while drivers change. On-coming drivers are not ready and chit-chat. Treat bus passengers with as much respect as dial-a-ride riders by keeping theh bus clean and not causing them to wait for at driver changes. Drivers should not look at or touch their personal cell phones unless on their break. Drivers should not allow dogs off-leash on the bus -dogs should be on a short leash if riding. Today's skis don't fit in the bus ski racks. May need more bicycle and stroller carrying capacity. Stroller access is unsafe -they are usually taken up stairs with baby in
Year-round resident homeowner	First thing in the morning their punctuality leaves something to be desired.
Year-round resident homeowner	It does not service the part of town where I live in.

Which of the following best describes you?	Do you have any comments or suggestions regarding bus service?
Year-round resident homeowner	Would like to see it as a year-round operation from The Meadows
Year-round resident homeowner	The bus is fantastic! Easy to get around with grandkids.
Year-round resident homeowner	Charge per use like any municipality
	have never used it
	I did not know about the bus service. I have owned a home for three years.
	If the chondola & gondolas continue not to run in the off-seasons, bus service needs to be more regular
	More bus service in off-season
	The schedule would be a lot more convenient if there were more off-season buses going from Mtn. Village to Telluride in the morning, rather than in the afternoon. Also, it's a pain to have to ride through the Meadows and Lawson Hill every time before getting to Telluride.

Which of the following best describes you?	Do you have any comments or suggestions concerning availability and access to parking in Mountain Village?
Business owner	Let's make more levels on the Intercept parking.
Business owner	We always are jumping through hoops to park the vehicles we use to provide services for our guests. A parking facility to support service providers would be helpful. The permit upper Mtn Village Blvd parking for service personnel is brilliant!!!!!
Business owner	Charge to park in the deck - winter and summer
Business owner, seasonal resident/second-homeowner	We should have two hour free parking in any of core Village parking areas for Mt. Village residents.
Business owner, seasonal resident/second-homeowner	Terrible around Village core
Business owner, seasonal resident/second-homeowner	No more obstruction of views (garage levels) and encouragement to drive
Business owner, year-round renter	improve number and proximity of handicap spaces to businesses
Business owner, year-round renter	You should have more pull-offs since there is no parking on any road side
Business owner, year-round resident homeowner	Add more layers to the parking structure.
Business owner, year-round resident homeowner	add parking nearer hiking trails
Business owner, year-round resident homeowner	Not enough parking near trails.
Business owner, year-round resident homeowner	Not much parking near trails...
Business owner, year-round resident homeowner	Opening up the section of parking at the Market helped a lot with access to skiing for residents.
Business owner, year-round resident homeowner	Skiers' parking in condo private lots is a problem
Business owner, year-round resident homeowner	Need to allow bigger vehicles in Meadows parking for free
Business owner, year-round resident homeowner	Fix and redesign Meadows parking areas, kids play here
Business owner, year-round resident homeowner	Fire parking man who is always unhappy
Business owner, year-round resident homeowner	Meadows parking lot is not managed well in winter. Since advertised this lot is abused and safety of vehicle traffic has declined.
Seasonal renter	Please don't allow the village to be overwhelmed by traffic/vehicles
Seasonal resident/second-homeowner	Additional spaces provided for residents at the Market has worked well and seems to have addressed previous problems. Should be continued year round.
Seasonal resident/second-homeowner	Charge during festivals to help generate some revenue!
Seasonal resident/second-homeowner	During ski season parking for locals is overtaken by visiting skiers. Adequate off-street parking should be available for residents.
Seasonal resident/second-homeowner	Hard to find parking for errands such as picking up pizza from Crazy Elk in winter
Seasonal resident/second-homeowner	i used to park in the pond lot and feed the meter everyday we went skiing. now we use the heritage lot and like it much better
Seasonal resident/second-homeowner	MV needs more parking

Which of the following best describes you?	Do you have any comments or suggestions concerning availability and access to parking in Mountain Village?
Seasonal resident/second-homeowner	Parking for residents is frequently difficult during ski season and festivals. Residents should be given priority.
Seasonal resident/second-homeowner	Please enforce the resident parking permit rules.
Seasonal resident/second-homeowner	Please go back to free parking at the market station. Our visitors to MV should have access to long term free parking options.
Seasonal resident/second-homeowner	The meters in the surface lots in Mountain Village are not as user-friendly as the meters in the Town of Telluride. The first 30 minutes should be free in all the surface lots to make it easier for people to pick up and return gear.
Seasonal resident/second-homeowner	The overnight fee for parking at the intercept lot should be eliminated. The fee at Heritage should remain, but be lowered.
Seasonal resident/second-homeowner	They are poorly landscapes
Seasonal resident/second-homeowner	Keep some metered parking
Seasonal resident/second-homeowner	Current parking is dominated by people skiing and event-goers, which inconveniences everyone else
Seasonal resident/second-homeowner	If you don't own a parking space, it can be expensive. Of course parking spaces aren't cheap. We do need more affordable parking.
Seasonal resident/second-homeowner	Very happy with Heritage parking
Seasonal resident/second-homeowner	What parking? The only convenient parking is by the grocery store. The rest is a disaster. Charging fees would finish killing off the small amount of business that happens in the core.
Seasonal resident/second-homeowner	To support local business there has to be free and convenient parking in the village
Seasonal resident/second-homeowner	Not convenient - Town of Telluride is just as bad
Seasonal resident/second-homeowner	People that live in MV should have access over visitors that are not staying there
Seasonal resident/second-homeowner	Should charge non-residents for garage parking
Seasonal resident/second-homeowner	Parking sometimes swamped by construction - suggest resident passes and small fee for all others
Seasonal resident/second-homeowner	Need some more locations for quick in/out pickups and dropoffs
Year-round renter	If some big or new hotel or business like Capella wants to build they should be required to add levels to the parking garage or pay toward it
Year-round renter	I think Mtn. Village should be pedestrian only to the extent possible
Year-round renter	Open Heritage Plaza parking to free parking in off seasons
Year-round renter	Not enough parking, especially for residents.
Year-round resident homeowner	I only use it when I know that it will not be busy.
Year-round resident homeowner	Increase capacity at Gondola/Market
Year-round resident homeowner	Need to complete or add the rest of the levels to the parking structure at the grocery store to reduce Mountain Village Blvd. parking for special events and overflow days. would provide a safer environment for drivers and parkers.
Year-round resident homeowner	Parking areas designated for disabled people should be better marked and enforced.
Year-round resident homeowner	The gondola parking garage needs to be expanded in the long-term and funded by parking fees from skiers and visitors, with free resident parking.
Year-round resident homeowne	More 30-60 minute surface spaces would be nice

Which of the following best describes you?	Do you have any comments or suggestions concerning availability and access to parking in Mountain Village?
Year-round resident homeowner	Not enough parking in Village core
Year-round resident homeowner	Lower parking fees in Heritage for residents of MV
Year-round resident homeowner	I'm not happy that RVs can park at Big Billie's
	I have not used Heritage parking yet and did not know I was allowed to use it.
	I'd rather MV discourage RV parking in the meadows...it's residential.
	It's unfortunate that Mtn. Village residents can't use the parking structure for overnight parking anymore (without paying), even though there are always so many open spots.
	Satellite parking for day skiers, with transport to the hill via free transit, is a better option than on-street parking when the parking structure is full
	there should be places to park in the village for more than 30 minutes - should allow up to 2 hours, so one can come to town for a few drinks or dinner and just park, like in telluride. Stuff like this makes people just drive to Telluride. The heritage parking garage we have gotten stuck in repeatedly, once for 30 minutes, because it was unable to read cards and the person at the other hand couldnt let us out.
	The locals permit is a great idea; please expand the number of spots.
	It is crucial for tourism to allow additional street parking for skiers and summer festivals for FREE
	There should be some place to park near entrance of MV to allow a limited amount of car pooling

Which of the following best describes you?	Do you have any comments or suggestions concerning street parking?
Business owner	If MV provides festival parking for events in T-ride then MV ought to get something... venue.
Business owner	People should be able to park on the street during busy times. This is a resort town after all.
Business owner	We survive on being a resort. Festivals are an integral component in this survival. Festivals, by nature, bring high volumes of guests in short periods. Hving workable parking options is vital. The traffic in the core does generate some trade in the core. Without that traffic, town focused festivals do little for business and tax revenues in the Village
Business owner	Do not allow it!
Business owner, seasonal resident/second-homeowner	Charge to support ski co. and Telluride town
Business owner, seasonal resident/second-homeowner	Should be allowed
Business owner, year-round resident homeowner	Towns expenses should be covered
Business owner, year-round resident homeowner	Clearly marked responsible party pays
Business owner, year-round resident homeowner	Free parking everywhere
Business owner, year-round resident homeowner	Construction rules too strict
Business owner, year-round resident homeowner	Whatever we need to do to bring in the most tourists and make parking easy and cheap
Seasonal resident/second-homeowner	Keep the cars out or site and limited to specific areas.
Seasonal resident/second-homeowner	Mountain Village has done a great job so far in limiting overfow parking due to construction, special events etc.
Seasonal resident/second-homeowner	Please provide more parking. This is a huge issue.
Seasonal resident/second-homeowner	Program isn't clear i.e. we only can park 4 cars in our driveway. Does this mean if we have visitors for dinner, they cannot park on the street and should call dial-a-ride?
Seasonal resident/second-homeowner	Telski should probably subsidize non-resident skier parking.
Seasonal resident/second-homeowner	TIOMV Streetys are abused during festival time and there is very little econiomic benefit received by the town for the hasssle and cost of monitoring this type of parking. Our streets do not facilitate large parking events and therefore, folks should either pay to park anywhere in TOMV or park in Telluride where they spend their money.
Seasonal resident/second-homeowner	We are near an access to Cross Country Skiing. The skiers park near our home. That is an eye sore. They can park in the free gararge and take DAR to the access like a down hill skier does. I was also NOT happy paying THOUSANDS of dollars for workers to park at our site while the house was under construction.
Seasonal resident/second-homeowner	We need to do whatever needs to be done to make the village accesable to visitors.
Seasonal resident/second-homeowner	More parking structures
Seasonal resident/second-homeowner	I think it should be minimized as it is misused. There shouldn't be parking at the top of the drive from MVB to the pond next to Boot Doctors.

Which of the following best describes you?	Do you have any comments or suggestions concerning street parking?
Seasonal resident/second-homeowner	Don't do it
Seasonal resident/second-homeowner	Current system good
Seasonal resident/second-homeowner	Cannot tell you how much I resent people parking along the streets. Hate it!
Seasonal resident/second-homeowner	Why turn visitors away with "no parking" restrictions?
Seasonal resident/second-homeowner	More special street parking for residents - especially to access core in the evenings and for shopping
Seasonal resident/second-homeowner	Ski parking for non-residents should be paid for by Ski Corp.
Seasonal resident/second-homeowner	Build garages please
Seasonal resident/second-homeowner	No street parking except for residents going to restaurants at night
Year-round renter	If new builders have to pay to add garage we wouldn't have them on streets
Year-round resident homeowner	As long as the people parking are spending money in MV - OK. Festival goers do not. Skiers do. Construction workers are at least a result of MV economic activity.
Year-round resident homeowner	Construction parking is an issue but over the years staff and contractor palnning has helped the situation. It is a necessary operation in the construction process but driver safety should always be the priority before convenience on the job site.
Year-round resident homeowner	Construction parking should be very limited, only in exceptional cases (where the lot does not accommodate parking), and strictly enforced.
Year-round resident homeowner	Do not spend taxpayer money to build excess parking capacity for 10-20 days per year. The simple, environmental and cost effective solution is to park on the street for peak times and events.
Year-round resident homeowner	Keep it to a minimum and charge for it.
Year-round resident homeowner	Parking structure should be completed, to eliminate unsafe parking on streets. Cost should be covered by Telski, who gets free parking for its skiing guests, and/or Tmvoa, from RETA. Property taxes should not be used to pay for this.
Year-round resident homeowner	Street parking is parking on the vegatation and compacts the soil leaving dusty/muddy ugly areas which are highly visible.
Year-round resident homeowner	Until there is adequate parking available, visitors and workers should not be turned away. The ski area should manage or pay to manage all winter parking operations - they are making the profits!
Year-round resident homeowner	If free parking is directed to MV and the gondola (free) from Telluride, MV should receive portion of festival ticket
Year-round resident homeowner	Keep it as limited as possible
Year-round resident homeowner	Designate parking areas in each neighborhood
Year-round resident homeowner	Residents should get preferred parking for festivals and events
Year-round resident homeowner	Charge for street parking
	Allowing parking on the street will damage the look/feel of Mountain Village.
	Need a place for carpooling parking near MV entrance

Which of the following best describes you?	Do you have any comments or suggestions concerning street parking?
	Parking like this is mostly for guests/visitors and I think there should be a reasonable for them to limited parking. I prefer visiting MV/Telluride when it is not so busy and crowded.
	Realistically, some street parking is needed for construction parking in built out areas, but this needs both controls and enforcement.
	We need to develop a remote parking option when the structures are full. Perhaps down valley with a free shuttle. At some point we may need to expand the structure size.

Which of the following best describes you?	Are you satisfied with the Residential Preferred Parking Program? If no, what changes would you like to see considered?
Business owner, seasonal resident/second-homeowner	We should have a residsent parking sticker for two hour free parking in any of the core Village parking areas.
Business owner, seasonal resident/second-homeowner	What is it?
Business owner, year-round renter	more privledges including not paying for parking at additional locations
Business owner, year-round renter	Allow VCA residents to park free again overnight
Business owner, year-round resident homeowner	I am not aware of the program
Business owner, year-round resident homeowner	KEEP IT!
Business owner, year-round resident homeowner	more options closer to the core
Business owner, year-round resident homeowner	more parking closer to the businesses in the core
Business owner, year-round resident homeowner	Not sure how well it's being managed. I see a lot of Texas vehicles without stickers parked in Residential spots.
Seasonal resident/second-homeowner	Continue year round, and and spaces if necessary. Ticket violaters aggressively.
Seasonal resident/second-homeowner	Do we have access in Heritage parking? I have not seen info and only use preferred parking for the Gondola behind the market
Seasonal resident/second-homeowner	Don't know about it.
Seasonal resident/second-homeowner	don't know anything about it.
Seasonal resident/second-homeowner	have know idea what this is
Seasonal resident/second-homeowner	I am NOT familiar with this.
Seasonal resident/second-homeowner	I dont know about it.
Seasonal resident/second-homeowner	I don't know what this is
Seasonal resident/second-homeowner	I'd like to see more residential parking spaces available throughout Mountain Village
Seasonal resident/second-homeowner	Make parking free and accessable to all
Seasonal resident/second-homeowner	More spaces in every lot so some are ALWAYS available. Eliminate the 1 hour opportunity for Non Residents at the market lot.
Seasonal resident/second-homeowner	Need more "accesible" spaces.
Seasonal resident/second-homeowner	Not aware of residential preferred parking program.
Seasonal resident/second-homeowner	Not even aware of it, so maybe it needs to be explained better.
Seasonal resident/second-homeowner	Please enfore the rules

Which of the following best describes you?	Are you satisfied with the Residential Preferred Parking Program? If no, what changes would you like to see considered?
Seasonal resident/second-homeowner	Provide more free parking for all residents and visitors. Do not allow any new construction in the core without providing free parking. I have been told many times by my guests that they will not return to the Telluride area because it is a destination resort with out many parking options. They feel nickled and dimed by the town charging for parking when it already costs so much to visit. The businesses in the core see reduced traffic because of the lack of affordable parking options.
Seasonal resident/second-homeowner	Unfamiliar with program
Seasonal resident/second-homeowner	We are not aware of this program.
Seasonal resident/second-homeowner	Need more spaces
Seasonal resident/second-homeowner	Could be an additional place in the village center
Seasonal resident/second-homeowner	Include some spaces in the Village core
Seasonal resident/second-homeowner	As residents pay for most of cost of facilities, should always have preferred parking
Seasonal resident/second-homeowner	Residents should always have free parking
Seasonal resident/second-homeowner	Should be allow throughout village
Year-round renter	more parking spaces in more areas
Year-round renter	Not involved
Year-round renter	1 person 1 car is fair
Year-round renter	Not enough spaces
Year-round resident homeowner	Information on the program, I did not know it existed.
Year-round resident homeowner	Heritage parking garage free spaces
	(I don't know what that program is).
	Great program, could use a few spaces in core. Many part time residents don't know of this program.
	I don't even know what it is. I feel like I should know what it is
	i dont know what this is.
	I think there should be more spaces spread around the Village.
	Thanks for the unlimited time parking at Town Hal.
	Great program. Would love t see more spots in the structure and in the village core (the lot by the Silverline project?).

Which of the following best describes you?	Other: From what sources do you receive most of your general news about Mountain Village issues and events? And from what sources do you receive Mountain Village government affairs information?
Business owner	Word of mouth
Business owner, year-round renter	Friends
Business owner, year-round renter	Friends
Business owner, year-round resident homeowner	Word of mouth
Seasonal resident/second-homeowner	Franz Klammer Lodge
Seasonal resident/second-homeowner	hired lawyer
Seasonal resident/second-homeowner	neighbors
Seasonal resident/second-homeowner	neighbors
Seasonal resident/second-homeowner	People in Village
Seasonal resident/second-homeowner	Word of mouth
Year-round renter	Plum TV
Year-round resident homeowner	Plum TV
Year-round resident homeowne	Rumors
Year-round resident homeowner	Person to person
	Home Watch

Which of the following best describes you?	What additional information would you like to see provided from Mountain Village and by what means?
Business owner	I do property management and your emails frequently scare my clients and I get a slew of emails
Business owner, seasonal resident/second-homeowner	emailed newsletter
Business owner, seasonal resident/second-homeowner	Any rezonings, any density exchanges
Business owner, seasonal resident/second-homeowner	Assess the carbon footprint of Telluride
Seasonal resident/second-homeowner	As vacation owners, we get information in the mail when there's an election, but there's never a follow up by mail to give the results.;
Seasonal resident/second-homeowner	More email information for those of us who are not full time residents.
Seasonal resident/second-homeowner	More lead tome on meeting and general announcements
Seasonal resident/second-homeowner	Periodic overview of key issues expected to be addressed by Town Council during next 3-12 months including simple financial summary.
Seasonal resident/second-homeowner	regular features of "what is happening in MV;" for example photos of construction sites w/descriptions of what is being built & by whom, social activities, organized hikes....on web site.
Seasonal resident/second-homeowner	I can't receive mail here. It goes everywhere so e-mail and newspaper is best.
Seasonal resident/second-homeowner	At least monthly communications with homeowners re: any issues or plans. Emails are fine.
Seasonal resident/second-homeowner	Need to find a way to get substantive information to second home owners - rarely in town when meetings occur
Seasonal resident/second-homeowner	Timely information
Year-round renter	Any! Receive none.
Year-round resident homeowner	Add page on web to sign up for various emails, also ask time frame on all
Year-round resident homeowner	Cable, Internet, Power disruptions
Year-round resident homeowner	Nicole does a good job about sharing upcoming events and other information prior to the event. If a resident needs information there are a multitude of resources to make one aware of the Mountain Village activities.
Year-round resident homeowner	The town does a great job of communicating important issues.
Year-round resident homeowner	too many emails. Also, re: parking, do not violate existing agreements. It makes the Town seem arrogant and above the law.
Year-round resident homeowner	Town web site is difficult to navigate - some town functions are not included any where
Year-round resident homeowner	Would like to be able to sign up for text message alerts regarding gondola/chondola outages.

Which of the following best describes you?	What can we do to improve Mountain Village cable TV?
Business owner	My picture has always been fuzzy, but I've been told there is no solution
Business owner, seasonal resident/second-homeowner	Have HD service and guide without box.
Business owner, seasonal resident/second-homeowner	Consistency, reliability, bring costs down
Business owner, year-round renter	guide channel for upcoming programming, also add additional kids cartoon channels. local channels provide nothing more than constant advertising. there should also be better volume control to prevent the volume of the near constant repeat of commercials from being such an assault on the hearing contrasted with the regular programming.
Business owner, year-round renter	Competion to bring down prices - it hard enough to live up here
Business owner, year-round resident homeowner	Make it less expensive.
Business owner, year-round resident homeowner	Too expensive, value not good. Have HD but will cut back - not enough channels to justify.
Business owner, year-round resident homeowner	HDTV
Business owner, year-round resident homeowner	Add Boomerang and pay per view
Business owner, year-round resident homeowner	Cheaper
Seasonal resident/second-homeowner	Ask the repairmen not to park at the entrance of the Courcheval Condos blocking the garage entrance and then just walk away. No keys in the ignition to move the car. Made us late for the airport...
Seasonal resident/second-homeowner	Charges for suspension (and reinstatement) of service are too high. DirecTV does not charge for the latter service).
Seasonal resident/second-homeowner	custom channel section at a lower price
Seasonal resident/second-homeowner	Increase speed
Seasonal resident/second-homeowner	Let Time Warner or other major provider handle services. Residents will get a better deal.
Seasonal resident/second-homeowner	Make us understand why we shouldn't switch to satellite!
Seasonal resident/second-homeowner	More channels, more HD programming
Seasonal resident/second-homeowner	more High Definition channels
Seasonal resident/second-homeowner	My wife really wants HGTV to be added. Also, there seems to be continual interruption of cable and internet service during the summer. Lastly, can you offer premium channels in a "vacation pac kage" so that users can turn them on and off on a monthly or quarterly basis?
Seasonal resident/second-homeowner	provide HD service for primary rather than peripheral channels. The present situation is pitiful
Seasonal resident/second-homeowner	Provide more choice at the same price.
Seasonal resident/second-homeowner	The condo management takes care of this for us
Seasonal resident/second-homeowner	The GM at the cable system about eight years ago treated us badly so you have lost us forever for TV service.;

Which of the following best describes you?	What can we do to improve Mountain Village cable TV?
Seasonal resident/second-homeowner	The number of channels available for digital are few for what we pay monthly
Seasonal resident/second-homeowner	High def boxes are too expensive monthly!
Seasonal resident/second-homeowner	More channels, HD, PPV - I'd be glad to get rid of sat.
Seasonal resident/second-homeowner	More HD channels
Seasonal resident/second-homeowner	Ban porn
Seasonal resident/second-homeowner	A lot more HD
Seasonal resident/second-homeowner	More channels, better features, less $
Seasonal resident/second-homeowner	Would like to see more sports - ie college football/pro football/etc. - ESPN Gameday, etc.
Seasonal resident/second-homeowner	Add HD channels
Seasonal resident/second-homeowner	Reduce minimum charge of $70/mo - half residents occupy less than 10% of the time OR on demand
Seasonal resident/second-homeowner	HD
Seasonal resident/second-homeowner	More channels, better reception, lower monthly cost
Seasonal resident/second-homeowner	Move into the 21st century!
Seasonal resident/second-homeowner	They are a cable company - they are all mediocre; sell them to DirecTV
Seasonal resident/second-homeowner	More free channels
Seasonal resident/second-homeowner	Just arrange for common Directv
Year round resident/caretaker	Get Venture, Universal channels, get rid of Fox News
Year-round renter	Keep the video signal clear and crisp at all times
Year-round renter	Get rid of all the sports channels and add some hunting/fishing channels
Year-round renter	Add Cartoon Network, Military, free or small fee for HBO/Showtime
Year-round renter	Network programming in HD
Year-round renter	Make less expensive for Big Billies residents
Year-round renter	Add Versus channel!
Year-round renter	Channels fade in and out. Unable to choose any other cable or satelie provider.
Year-round renter	cheaper internet
Year-round renter	Like to see more channel choices (improvements made this winter were a good start). Like to see a channel guide for the basic subscriber level.
Year-round resident homeowner	Decrease the price or offer more value. Compete with Satellite.
Year-round resident homeowner	Get more HD channels especially the network stations.
Year-round resident homeowner	more HD channels, especially network channels, ABC,CBS,NBC,FOX
Year-round resident homeowner	offer more channels and better quality. VS and altitude programming increase the packages. I use Direct TV and that is a value with exceptional service.

Which of the following best describes you?	What can we do to improve Mountain Village cable TV?
Year-round resident homeowner	If hookup fees were less than the $500 quoted I would have been a subscriber
Year-round resident homeowner	Do not charge fees that penalize people for using only internet and not cable
Year-round resident homeowne	Don't charge for HD. Satellite TV has much cheaper HD.
Year-round resident homeowner	Get Ch. 15 operational
Year-round resident homeowner	Less cost, more channels
Year-round resident homeowner	More choices on PPV
Year-round resident homeowner	Reduce fees and more choices
Year-round resident homeowner	When will Ch. 15 be active?
Year-round resident homeowner	Channel selection
Year-round resident homeowner	More programming choices - sports
	Add more HD channels and provide it in the basic package.; Allow less expensive way to turn on or off the service for residents who are not at MV very much.
	Basic service wasn't worth anything so by the time I acquired adequate programming and picture quality it costs something like $140/month.
	HD channels
	I will likely be moving from direct TV / Qwest to MV cable / internet / Phone in near future, waiting for reviews from friends that have moved to MV phone.
	More channel choices;
	Reliability!
	too expensive
	You are way out of touch with HD channels and cost. We pay roughly the same at our main home and we receive MANY more HD channels and we get all of the premium channels. I would rate this as one of the worst aspects of MV - along with recycling
	Better rates, more channels

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
Business owner	Diversity of design elements, public art, understandable signage, people in off seasons!
Business owner	Movies; consistent high quality restaraunt, Internet cafe, Deli, convenience store in the core.
Business owner	sunset plaza snow melt. It is slippery and dangerous. Bobcats are loud and stinky.
Business owner	Indoor recreation
Business owner	Nothing!
Business owner, seasonal resident/second-homeowner	A concentration of the retail space. It is too disjointed.
Business owner, seasonal resident/second-homeowner	High end designer stores selling more than sports related equipment. More fashion for adults, teens and kids.
Business owner, seasonal resident/second-homeowner	Retail and resturants and bars
Business owner, seasonal resident/second-homeowner	Hospital/clinic, drug store
Business owner, seasonal resident/second-homeowner	Big central après-ski
Business owner, year-round renter	ambient music that would emit from outdoor speakers placed discreetly by trees, shrubs and other landscaping. This would help the energy as well as increase business in the afternoon and evening, help people feel more welcome and someplace that they could stay around and visit with others or just stay outside and relax.
Business owner, year-round renter	indoor playground+indoor community swimming pool
Business owner, year-round renter	indoor playground+swimming pool
Business owner, year-round renter	Telski's amphitheater concept would be a good addition. Build the rec center.
Business owner, year-round renter	People to stay around
Business owner, year-round resident homeowner	Bookstore, hardware, but won't work if there isn't a variety - not going to run up to Village if I can do 3 or 4 in town just as easily. How about better direct road access from Meadows.
Business owner, year-round resident homeowner	Soul
Business owner, year-round resident homeowner	Rec center, athletic club/spa
Business owner, year-round resident homeowner	More retail
Business owner, year-round resident homeowner	Dry cleaner, shoe repair
Business owner, year-round resident homeowner	Off mountain activities for families
Business owner, year-round resident homeowner	Theater/dancing for mature person
Business owner, year-round resident homeowner	a recreation center

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
Business owner, year-round resident homeowner	affordable restaurants for working locals that have imaginative food
Business owner, year-round resident homeowner	Much more employee/local housing that's truly occupied by locals and families. That will create vibrancy more than anything else.
Business owner, year-round resident homeowner	people living there
Seasonal resident/second-homeowner	A church,a emergency health clinic and a hardware store(or at least more selection of hardware goods at the Village Market)
Seasonal resident/second-homeowner	A discoteque or nightclub for the young and less young
Seasonal resident/second-homeowner	A pharmacy would help.
Seasonal resident/second-homeowner	convenience store, movie theater, chinese/thai/indian food, book store
Seasonal resident/second-homeowner	Evening restaurant options, retail and more events to draw interest and provide activities for residents and guests.
Seasonal resident/second-homeowner	Fabulous food so that we don't always think about going "all the way" to Telluride!; A hang out place that isn't a beer pub type...I know it cannot support a book store but something that is more community centric...its a good brainstorming topic!
Seasonal resident/second-homeowner	In my opinion Mountain Village Center is over-built. I came to this area to stay away from Aspen or Vail, not to see it transformed into more of the same!
Seasonal resident/second-homeowner	library branch, staples, local laundry for hotels rather than send all outside of MV, maybe a drug store, and a type of park that would support activities like bocce bowling, horseshoes, board games such as chess, including tables with built in boards and maybe large pieces that are weather resistant. Stuff like this one finds throughout Europe.
Seasonal resident/second-homeowner	More foot traffic to support the businesses before we need more businesses.
Seasonal resident/second-homeowner	More good restaurants.
Seasonal resident/second-homeowner	More retaurants and shopping alternatives.
Seasonal resident/second-homeowner	more variety of commercial establishments
Seasonal resident/second-homeowner	MOUNTAIN VILLAGE CENTER MUST BECOME A GREAT PLACE TO EAT AND SHOP
Seasonal resident/second-homeowner	MV dog mascot
Seasonal resident/second-homeowner	Night time traffic generators like a movie theater, bowling alley, etc
Seasonal resident/second-homeowner	Overall improved quality of non-fine dining restaurant/food options. Affordable quality choices for everyday outings.
Seasonal resident/second-homeowner	Parking!!!!!! Free Parking A real hotel. We have too many qweky hotesque places like Capella, Peaks, Luminwhatever, Lost Creek, Franz etc. How about a name brand that has good national advertising like a Hyatt Resort.
Seasonal resident/second-homeowner	people who live there full time
Seasonal resident/second-homeowner	pet grooming; upscale wine shop +/- gourmet foods
Seasonal resident/second-homeowner	Recreation for children and hiking trails that are well marked.

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
Seasonal resident/second-homeowner	small, human scale buildings.
Seasonal resident/second-homeowner	Stability in zoning and planning enforcement
Seasonal resident/second-homeowner	There is next to nothing in Mountain Village. Very limited. To bad it could be a nice place.
Seasonal resident/second-homeowner	We don't need more hotels for sure or even retailers. We need to have a town square atmosphere....more carts, more activities and events
Seasonal resident/second-homeowner	We need more reasonable prices in the grocery store. The homeowners, to our understanding, subsidize the grocery store. The prices are horrible. We try to support the grocery store whenever we are in town. Our thanksgiving dinner cost in excess of $300 for the basics for 6 people. When we were there during the Christmas holidays with a houseful of family, we shoped everyday. Grocery costs were horrendous. It is sometimes worth the car ride to Montrose. The paper products, all recycled, fall apart and are not worth purchasing. We go to ACE hardware in Telluride for those! I realize the trend is conservation and organic, but in these economic times, some sensitivity to the consumer is necessary....especially when we are already subsidizing them.
Seasonal resident/second-homeowner	While I am not opposed to having children's events in MV, I do believe the Center should avoid the Carnival atmosphere that currenly prevails. The circus events should be provided elsewhere.
Seasonal resident/second-homeowner	General store for children, men, women
Seasonal resident/second-homeowner	More after-ski rec activities
Seasonal resident/second-homeowner	Place for boarding pets - daily or overnight
Seasonal resident/second-homeowner	Activities indoors during winter
Seasonal resident/second-homeowner	A great bar with music where Club is now
Seasonal resident/second-homeowner	Rec center
Seasonal resident/second-homeowner	Good restaurants
Seasonal resident/second-homeowner	Restaurants!!
Seasonal resident/second-homeowner	Movie theater
Seasonal resident/second-homeowner	Recreation facility (pool, tennis courts, gym)
Seasonal resident/second-homeowner	Movie theater
Seasonal resident/second-homeowner	Après-ski at the beach with bands not Hop G.
Seasonal resident/second-homeowner	Good pizza - Crazy Elk is awful. More places for kids to eat - not in a bar.
Seasonal resident/second-homeowner	Parking!
Seasonal resident/second-homeowner	More dining options
Seasonal resident/second-homeowner	McDonald's

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
Seasonal resident/second-homeowner	We enjoy the quiet low key atmosphere
Seasonal resident/second-homeowner	Activity in the evenings - no retail open after 6 PM, after the time change still daylight and stores closed?
Seasonal resident/second-homeowner	Movie theater
Seasonal resident/second-homeowner	Quality food, not number of restaurants
Seasonal resident/second-homeowner	Welcoming attitude toward visitors, make them want to come back!
Seasonal resident/second-homeowner	The quality of restaurants needs improvement, not the number of restaurants
Seasonal resident/second-homeowner	Logical layout - segment services
Seasonal resident/second-homeowner	Better postal service
Seasonal resident/second-homeowner	Good après-ski bar and music that is reasonably family friendly. Need a place to meet/hang out end of day.
Seasonal resident/second-homeowner	Restaurants, shopping - the feel of a lively resort. Vending carts are tacky.
Seasonal resident/second-homeowner	Teen center/youth lounge
Seasonal resident/second-homeowner	Beautiful year round ice skating, restaurants, shopping
Seasonal resident/second-homeowner	Movie theater
Seasonal resident/second-homeowner	More activities for children
Year-round renter	Indoor child play area
Year-round renter	Virbant at gondola station and bottom of stairs. It looks desolate so they go back to Telluride.
Year-round renter	Stores selling more fishing camping
Year-round renter	Rec center
Year-round renter	Inexpensive dining/shopping, non-sporting good apparel
Year-round renter	A warmer atmosphere, it's cold and forbidding even in summer
Year-round renter	Entertainment for working class
Year-round renter	Variety in shops
Year-round renter	basketball court in summer in ice pond area
Year-round renter	pharmacy, full service post office, movie theater, branch library, small market for convenience items.
Year-round resident homeowner	A recreation center for both residents and visitors. Complete already zoned hotel/condo properties.
Year-round resident homeowner	A recreation center in or near the center. On mountain summer recreational amenities-zip line, alpine slide, more mtn biking options.
Year-round resident homeowner	A sense of community
Year-round resident homeowner	All the "activity" is focused on the one plaza area - the other plazas seem too quiet - spread out the activity to include the entire areas
Year-round resident homeowner	Community rec center like Durango

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
Year-round resident homeowner	Employee housing in the core would add more people there year round which would make the place seem more active and keep visitors here instead of taking the gondola. Vending Carts would be nice in the summer again to make the place feel more vibrant.
Year-round resident homeowner	Let's try to fill or occupy the resources/ hotels rooms ect that exist already. We need to bring people to the Mountain Village and have the ability to keep them entertained and help them spend money in our town. More activity and more options.
Year-round resident homeowner	People living there
Year-round resident homeowner	People with money to spend
Year-round resident homeowner	People!
Year-round resident homeowner	Stores, restaurants, and ice skating open longer on a dependable basis. Medical offices - doctors and visiting specialists, dentists, physical therapy, pharmacy, US post office, library return box or mobile services, hardware store, newstand. Some chain or comparable fast-food like Subway, Taco Johns, and In-N-Out Burger and better fast food Rubios. Flowers on all balconies like Vail. Perhaps a lamp on in every office/condo/hotel unit in the core at night. Burned out lighting replacement immediately. Seating at the See Forever plaza & lighting on the stairs. More plaza fireplaces that are more dependable than the current one. More plaza seating. Free skating could increase people in core. Replace flowers in beds that aren't performing well. Ice climbing. Year around "rock" climbing accessibility. Indoor water park. More playground for more ages more accessible. Creek running through the middle -above ground allowing creekside cafes and ambiance. Smoke-free plazas. Smoke-free public gatherings such as concerts.
Year-round resident homeowner	Support of existing businesses.
Year-round resident homeowner	Regular priced clothing, daily needs
Year-round resident homeowner	Nightlife!
Year-round resident homeowne	Ethnic dining: Chinese, Thai, Mexican, etc.
Year-round resident homeowner	Library/coffee shop
Year-round resident homeowner	Participate in festivals in summer in village, add more parking for residents
Year-round resident homeowner	Visitors
Year-round resident homeowner	Hardware store
Year-round resident homeowner	Vitality, boutique shopping, casual affordable restaurants
Year-round resident homeowner	More green summertime seating/play area . . near pond? or new park near Peaks and Village Creek?
Year-round resident homeowner	Affordable family restaurants, convenience store, library
Year-round resident homeowner	Not more, better! Get a retail consultant.
	Casual Dining Places--most are either high-end or have very limited seating or service. Would appreciate places to sit and coffee, snack, talk

Which of the following best describes you?	What do we not have in the Mountain Village Center that is needed?
	I think that all of the store fronts need to be filled - the Core seems more and more like a ghost town as stores move out. New retailers are likely scared off by high rents.
	Lockers for owners.
	more bars and push more apres ski socializing/shopping. having better parking and more dial a ride service would help this too
	More cultural, arts, historic, interpretive exhibits/events, which people (both visitors and locals) can enjoy at little or no cost -- yet add to the vibrancy/traffic in the core
	More hotel rooms, in particular in mid - price range. You need hotel rooms that will have high demand and high occupancy in high seasons, and sufficient number and good price point to attract shoulder and off season group travel.
	Parks, community garden
	people :) (in the spring, summer, fall). ; ; Flow between businesses.
	Picnic Tables with BBQ , volley ball sand courts, shade trees, miniature botanic gardens, ...
	Corporate events filling the hotels and convention center during off-season. More bundled offerings to attract the hi-end tourist (air/hote/skiing). Direct air service from the Teluuride airport to major markets e.g. LA, San Diego, Dallas, Chicago
	More place for people to hang if they do not ski or participate in outdoor activities
	School, library, support services-daily
	A night life
	Nightclub
	Nothing, we like the way it is

Which of the following best describes you?	Do you support other uses?
Business owner	Playing fields, frisbee golf, bocci ball, skate park, bike park, keep the downhill bike course going!!! Zip line, climbing wall, grass skiing, kite flying,...
Business owner	NOT commercial uses
Business owner	Keep it green! No building!
Business owner, seasonal resident/second-homeowner	Hospital, clinic, medical community
Business owner, seasonal resident/second-homeowner	Leave open space as is / that is why we made this commitment otherwise we will be a small Aspen
Business owner, year-round renter	More commercial space appealing to retail and restaurant chains
Business owner, year-round resident homeowner	Tennis center
Business owner, year-round resident homeowner	Med center
Business owner, year-round resident homeowner	Other government type of service buildings
Business owner, year-round resident homeowner	More bike trails
Business owner, year-round resident homeowner	Park
Business owner, year-round resident homeowner	Better trails from Meadows to Town offices and market. Need to go through golf course on a shared trail.
Seasonal renter	Fitness facility
Seasonal resident/second-homeowner	Housing and a clubhouse/recreation Center suffice
Seasonal resident/second-homeowner	I definitely do NOT support the idea of an amphitheater in the open space of the Mistey Maiden ski run!
Seasonal resident/second-homeowner	I support keeping open space as open space
Seasonal resident/second-homeowner	NO!
Seasonal resident/second-homeowner	open space as open space, hmmmm.
Seasonal resident/second-homeowner	Open space should be left open....the MV Center is already way too congested with buildings nearly on top of each other. Visitors come here for the open space views, don't change it please
Seasonal resident/second-homeowner	Open space should remain open and not be used as a poker chit to bargain with developers or TSG. The beauty and value of TOMV is its open space, not is pavement and skyline.
Seasonal resident/second-homeowner	Parking!!!!
Seasonal resident/second-homeowner	preservation of open space is very important to me.
Seasonal resident/second-homeowner	Seema like there are alot of hotel beds. Are they filled during the busy seasons? Even if we had more affordable housing, workers cannot afford to grocery shop in the Mt. Village. As far as rec buildings or a clubhouse, is there indoor space underutilized in the Conference Center that can temporarily fill this use until such a time when it is necessary to have a more permanent space for these activities?
Seasonal resident/second-homeowner	Tennis

Which of the following best describes you?	Do you support other uses?
Seasonal resident/second-homeowner	A rec center with pool, hot tub, yoga class etc.
Seasonal resident/second-homeowner	Keep as open space
Seasonal resident/second-homeowner	Parks
Seasonal resident/second-homeowner	Only for recreating - that is why we come
Seasonal resident/second-homeowner	Keep it open!
Seasonal resident/second-homeowner	I enjoy Telluride not Aspen or Vail
Seasonal resident/second-homeowner	Ecumenical chapel
Seasonal resident/second-homeowner	Chapel
Year-round renter	We have enough hotels.
Year-round renter	Outdoor activities
Year-round renter	Trap and rifle range
Year-round resident homeowner	Parks
Year-round resident homeowner	NOT a medical facility
Year-round resident homeowner	Put in a rec center!
Year-round resident homeowner	again more activity options. when we can consistently fill all rooms year around then address additional hotel space. More facilities and activities to bring and keep people in the Mountain Village
Year-round resident homeowner	Giving the medical center space would increase foot traffic which increases vibrancy and other uses. This could be incorporated with a rec center.
Year-round resident homeowner	No
Year-round resident homeowner	Parks / playgrounds/ community activities
Year-round resident homeowner	Public Parks. Public playgrounds. Public picnic facilities.
Year-round resident homeowner	Sure - we have lots of open space in Town that can/should be used within reason. Being surrounded by public lands insures overall open space protection, so a little more MV open space being used for community and economic purposes is fine
Year-round resident homeowner	Winter sporting events
Year-round resident homeowner	Would allow hotel development if there is satisfactory-high level of public benefits-such as a rec. center, or fund the additional levels on the parking garage.
Year-round resident homeowner	yes.
Year-round resident homeowner	Open space should be open space!
	Are construction workers workforce ? .... I do not think it is our responsibility to provide housing for non-village employees to profit the contractors.
	How about no more use--vacant land is beautiful.
	I don't have enough information

Which of the following best describes you?	Do you support other uses?
	No. it is busy/built up enough. Stop more building
	only to expand ski mountain.
	Generally as long as we fit the look and feel and activity into the surroundings.
	Trails/parks/community services
	Recycling center, organic gardens

Which of the following best describes you?	Other use: During each season, how many weeks is your home in Mountain Village used for the following?
Business owner	office
Business owner	it is vacant land
Business owner	Caretaker
Business owner, year-round resident homeowner	Home business
Seasonal resident/second-homeowner	otherfamily friends
	fractional

Which of the following best describes you?	Do you live in Mountain Village, but your business is elsewhere? If yes, how would you describe your business?
Business owner	My business is in the Mountain Village and Town.
Business owner, seasonal resident/second-homeowner	Art, Civil Engineering
Business owner, seasonal resident/second-homeowner	Real estate
Business owner, year-round renter	consulting/real estate
Business owner, year-round resident homeowner	plumbing, heating, solar, geothermal contracting based at Lawson Hill
Business owner, year-round resident homeowner	Service industry
Business owner, year-round resident homeowner	Town
Business owner, year-round resident homeowner	Salon/retail

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Business owner	We are at the start of a growth cycle. Telluride is being discovered. We have to actively plan and create the infrastructure to support the inevitable growth which has started the past 2 winters.
Business owner, seasonal resident/second-homeowner	Love the Dial a Ride (we do pay for it every month in our fee-taxes); possibly consider something unique that would bring more full-time residents - medical community, specialized clinic; rec center with classes, lectures, gym, pool, yoga/Pilates - a community center where everyone could benefit not just children
Business owner, seasonal resident/second-homeowner	Restrict Dial a Ride by fee after 1 or 2 daily rides. Modify density transfer to realistic comparables. Protect open space. Eliminate the expensive Wednesday twilight concerts which generate traffic, but little revenue except to benefit only 2 or 3. Or have those 2 or 3 provide financial support.
Business owner, seasonal resident/second-homeowner	Get the police off the streets giving out tickets! We need people here with smiles on their face! Parking in the village core, more retail/restaurants/bars. Parking laws suck downtown.
Business owner, seasonal resident/second-homeowner	Great survey! MV Town services are wonderful! Please stop the building - real estate is down, climate change is up. Beetle kill spread is of utmost concern!
Business owner, year-round renter	Movie theater, more access to evening activities; Cable should subscribe to ESPN 360; Better maintenance of roads and snow/ice removal to prevent injury to pedestrians.; More affordable homes to purchase.; Improve reliablilty of internet service.; More shopping!; More restaurants/fast food affordable!
Business owner, year-round resident homeowner	We really need more activites for young children (rec center). ANd we really need sidewalks in some of the residential areas (not just dirt trails...but real, paved sidewalks that accommodates strollers.
Business owner, year-round resident homeowner	Remove the vending carts in the core and replace with entertainment. They are taking away from struggling business in the area. It looks like a swap meet.
Business owner, year-round resident homeowner	Sunset Concert Series does NOT need to be weekly. It is way too expensive. One night a month would be better. Locals will appreciate it better too.
Business owner, year-round resident homeowner	I am very concerned about the prices at the Mountain Market. We were promised 10% over City Market; and they charge at least 30% more. I don't want our taxes to subsidize the market any longer!
Business owner, year-round resident homeowner	Utility bill late, quick with late charges. Plow drivers at Meadows parking lot when clearing are driving too fast and are a hazard to pedestrians. Also where they have stored snow when plowing has destroyed aspen trees and wetland shrubs. Public Works dept. does not return phone calls regarding these issues.
Business owner, year-round resident homeowner	Remembering we live in the best place possible. Looking to the future without spending a fortune. A place that families can dine and chat, dance with music inside, given our irratic weather would bring a communal togetherness, as Telluride town has. We do have occassional music festival this would be stationary gathering place. It could be attached to a activity center
Business owner, year-round resident homeowner	Town employs companies with illegal workers. Town gives members and friends special concessions. Scotty MacIntyre not responsive to public safety concern - does not return phone calls. Town Council has created problems in past - shown favoritism, has had two sets of rules. Need a hiking-biking trail between Meadows and Market area and core. Need to bisect golf course!!! On shared trail between Hole 2 and 17 to Double Cabin.

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Business owner, year-round resident homeowner	Please run the Choldola year round like the Gondola - we pay for it so let us use it!; ; Also, the entrance to our development (The Boulders) is a mess. The road is full of potholes and the commercial businesses park along the entrance blocking our road and create a fire hazard. My guess is that on most days a fire truck or ambulance could not even get into our development because the commercial businesses have the road blocked with their illegal parking. This must be addressed! It is a safty issue and a maintenance issue.
Seasonal resident/second-homeowner	1.trade for and develop area behind village bypass as affordable housing; 2.relocate the parking garage gondola base so all arrive in MV, rather than use as transit; 3. Require Telluride to support their proportionate benefit from gondola or charge for trips into Telluride; 4. Insert the gondola into more advertising; 5. Please shorten these questionnaires which are abusive of time and repeat questions at least yearly on much of the data, which by now you must have for all but new property owners.
Seasonal resident/second-homeowner	Consider rental holidays during shoulder seasons for retailers/restaurants in the core to encourage business or base rental rate on a small percentage of revenue during first one to five years to stimulate business.
Seasonal resident/second-homeowner	Do not support the idea of an amphitheatre on Misty Maiden.
Seasonal resident/second-homeowner	Keep a lid on taxes as they act as a deterrent to home purchases in the area
Seasonal resident/second-homeowner	Let's stop wasting time and money on the concept of a vibrant retail sector in the core....it's an unworkable day dream. The market provides most of what we buy locally and we're happy to go into telluride to get the remainder.
Seasonal resident/second-homeowner	Limit government involvement. PERIOD. Do the things like roads, cops, fire, water, sewer, cable, snow removal, enforce building code, END OF LIST. You are not the Chamber of Commerce. Reduce taxes to ZERO or as close to ZERO as possible.
Seasonal resident/second-homeowner	MV is an unsustainable economic model. Emphasis has been on real estate value and high end accomodations rather than the viability and quality of community. MV lacks a critical mass of full time residents. MV has failed to create a four season draw. The high end hotel and dining fails to deliver a "world class" experience. There is insufficient affordable housing which is segregated to a limited area and not adjacent to the village core. People create quality and value, not money.
Seasonal resident/second-homeowner	Stop trying to find ways to spend residents money. Take care of water, sewer, roads, snow removal, fire protection, and limited police activities. Stop "overreaching" and take care of ONLY resident requirements. Your job is not to sell our community. Let the HOA deal with that issue.
Seasonal resident/second-homeowner	Thanks for the opportunity to voice my thoughts.
Seasonal resident/second-homeowner	The landlords have prices small business out of the village. The Tellski restaurants are not well run. Pretty boring.
Seasonal resident/second-homeowner	The rule of no parking in the streets of MV really needs to be enforced. It certainly makes no sense to allow such parking for events that take place in Telluride. If we choose to make some allowances for skiiers, they should pay.
Seasonal resident/second-homeowner	Water bill too high.; Solar paneling should not be allowed when other homes can see it (we have this problem.
Seasonal resident/second-homeowner	We love the area for its natural amenities, quiet, and lack of crowds. Please don't try to create another Vail or Aspen in this beautiful place.
Seasonal resident/second-homeowner	While anything can be improved, as stated earlier, The MV is BETTER than other ski resorts I have visited in Colorado, Utah, Wyoming and California

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Seasonal resident/second-homeowner	You have been doing a great job in careful planning. Not too many parking garages, please. We love Telluride for the beauty. The Gondola was an excellent ambiance for moving foot traffic. I just wish there was a way to have visitors support the MV restaraunts and retailers. Also, the summer concert series needs an overhaul. You need to get some diverse talent. It's too much the same old stuff. (Big band, symphonic, 70's, 80's, magician,juggler, something different!)
Seasonal resident/second-homeowner	Allow businesses to put out attractive signs. For instance, restaurants should be permitted to indicate what they offer as to facilities (bar, restaurant, takeout) and specials also. Not easy to find shops and restaurants off the beach area. I am not in favor of carts - perhaps a food court area. The shops and restaurants and hotels thyat pay rent and taxes should have a priority - also the village core is not conducive to what is available as to shops and restaurants and their location. It seems that most people in season use the facilities that are easily visible and generally do not cruise the back areas.
Seasonal resident/second-homeowner	The kids miss the intertubing park. The fireworks where too far away from the village core. They should go back to shooting from the ridge on Misty Maiden, just above the village core.
Seasonal resident/second-homeowner	I like twilight concerts but we can do without and save the money. Keep open space OPEN.
Seasonal resident/second-homeowner	I love to live in Mountain Village. I have watched it grow for 20 years. We have just had a wonderful winter. My husband skied 64 days and I 60. It is the most beautiful place. We skied with our 5 children and their families and nephews and nieces. It was great! Transporting people around, helping with skis etc. - hotel people get this service but others do not. That is why the Gondola Plaza Yurt is so important to me. It's a wonderful service to me and many people from the village, people that come in to ski (Ski Ranches etc.) and people from town. Thank you for doing this survey.
Seasonal resident/second-homeowner	Would like to see stricter enforcement of street no parking laws - more residents and visitors are parking on the street. Better control of dogs and dog owners - pets are running along the ski trail without a leash even during ski hours and owners are not picking up the poop. Police the frisbee golf players in the summer and fall - some use the wetlands as a bathroom and smoke around dry grass.
Seasonal resident/second-homeowner	Enforce ALL trash to be in bear-proof cans - NO loose bags! Recycle trash should be a part of regular service - no add'l fees. Small fee should be charged for Dial-a-Ride instead of residents subsidizing. Need restaurant for evening dining - La Piazza and La Pizzeria are awful. Bistro Isabelle was very good and reasonable - need another place like that in the Village. Homeowners and visitors need to respect environment re: dog waste. Our home is on a ski run and every day we see dogs running without a leash, doing their business and the owners do not use poop bags but leave it on the slopes for people to ski on! We have also had dogs run up on our deck, and poop on our property.
Seasonal resident/second-homeowner	Improve recycling
Seasonal resident/second-homeowner	Dial-A-Ride service during full summer and winter seasons is important both to owners and renters to avoid the need for a car and relatedly traffic and parking burdens to town. Charging for such a service should be usage-based and chargeable to a credit card by owners kept on file at Dial-A-Ride; owners could then directly deal with a renter if they used the service during a rental period
Seasonal resident/second-homeowner	This is at least the third time I have either filled out a questionaire or attended a "meeting-round table" at an expense of $250,000 (approx.) each and nothing ever changes. A ridiculous task and $!

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Seasonal resident/second-homeowner	Paper is the only recycling I'm aware of.
Seasonal resident/second-homeowner	The intrutions on the ski mountain, already commenced around Alred's such as Smuggler run, are unacceptable. And even the proposal the build a premium hotel at Gorranos, shows a total lack of insight why we invested millions in a home in Telluride/Mountain Village. Hotels and commercial development need to go on the empty lots east of the core and downhill from the Peaks
Seasonal resident/second-homeowner	Reliability of internet very poor in peak times like Christmas/New Year. Love Telluride and Mountain Village! Been coming here for 15 years. Parking is a real issue in Mtn Village and Town of Telluride- signs confusing in Telluride as to when you can park - stupid! Been told it is to create revenue for town from tickets - ridiculous! If someone owns property in Telluride then they should be able to purchase a parking permit to have priority parking in town
Seasonal resident/second-homeowner	More evening destinations - Mexican restaurant, sushi, Thai, etc. Places with a comfortable lounge/bar with music. We don't want to go to Telluride all the time but we often have a houseful of guests and need a place that will take reservations for 10-12 people. Family restaurants, sports bars, that aren't just apres-ski places.
Seasonal resident/second-homeowner	I am totally opposed to your recent plan. You will lose a lot of second homeowners if you go forward with it. If we had wanted to live in Vail, we would have bought there! The idea of using open space for new projects that various owners were not aware of when they bought is a very bad idea. Making the core more interesting is one thing - ruining the rest of MV is another! A lot of people are very upset at the route this project is taking.
Seasonal resident/second-homeowner	We enjoy MV for what it is and what we bought into, a beautiful, safe, quiet uncrowded second home community. I would strongly oppose plans to convert open space to other uses, infringing on the golf course, building low cost housing, etc. that would change the character of MV from what it is today. Reduced level of plowing on access roads limited ease of ski slope access this past season.
Seasonal resident/second-homeowner	The garage is the ugliest facility in MV. There should be user fees charged for all "free" services, except the gondola. We don't need more retail and restaurants, we need better retail and restaurants. MV should be the "Village" - restaurants and some retail, and Telluride should be the "town" - hardware store, furniture, library, etc. There must be a difference and compatible plan
Seasonal resident/second-homeowner	It cannot be economic for Mountain Village to develop complete town amenities such as rec centers and transportation. These should be accessible in Telluride and subsidized transportation to Telluride should be adequate. People who come here come because M.V. is not Vail and will go elsewhere if density and thus ease of access is impaired. It is much more important to pay for events and experiences in M.V. than to increase hard goods retail sales. Very important to create a M.V. gathering place for music, beer, socializing at end of day both summer and winter. People want to be together but now go back to individual hotel lounges, homes and condos. Take the existing club space near Lift 4 base and expand - something more upscale, livelier and inviting than beer joint next door. And, it needs to be indoors in winter.
Seasonal resident/second-homeowner	Unsurpassed beauty and developing into a world class resort. Need to increase hot beds and parking. Not enough national and world events in skiing/snowboarding, concerts, intellectual institutes. Start a Think Tank "Telluride Institute" a la Aspen. Need to attract many more people to increase density! Too difficult to park in M.V. Village to spur activity. Plow operators careless and do damage to property.

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Seasonal resident/second-homeowner	Dial-a-Ride is a very important aspect of the Mountain Village experience. Without it we are "toast." Please make sure that it is staffed and funded properly. We have seen some major issues during peak vacation times. If you want families to vacation to Mountain Village then you need a convient and efficient way to transport them around. The gondola is great but we need to get us and our guests to and from the town hall plaza and the village core. As a second home owner I would support higher HOA dues for a better Dial-a-Ride experience.
Seasonal resident/second-homeowner	Great family place. Safe to let children on slopes. We regularly bring lots of friends because of proximity to Arizona, safety, convenience of amentiies, tie-in of Town of MV and Telluride, availability of hotel/condo space for guests at reasonable prices, great restaurants.
Year round resident homeowner	Target TMVOA mission, in addition to funding gondola, to (1) providing member benefit programs like concerts, speaker series, block parties, tastings, eco adventures and (2) priming the economic pump by providng all owners with an affinity card that offers a material discount in all MV restaurants and businesses, thereby incenting the local resident to eat and shop in MV. Town focus on economic development, safety, and look and feel.
Year-round renter	MV Internet - subscribe to espn360, increase speeds.; ; Like to see the chondola open year-round like the gondola.
Year-round renter	no
Year-round renter	Wonderful community with wonderful employees. Would love to see more indoor winter activities especially for parents with toddlers and young children. Transportation is unmatched. WE have had several visiting friends blown away with services. Love the helpfulness/community effort of our police dept. I have lived in Vail area in past, this community surpasses that. Would like to see improvements of Frisbee golf, even if it means starting over.
Year-round renter	Keep up cleanliness. More climbing, biking, skiing, hiking, trails, lifts. Improve parking at cost of new builders. Improve roads at cost of new builders. Zero waste and more recycling, clean efficient energy. Require all new building to be green/eco. Require all old buildings to change over by a certain date. Healthy food available at restaurants like a raw cafe or something like that. Zip lines would be cool. Need lots of live music, nite life - it's in T-ride. Stuff that would bring our winter people back in the summer too. It's 2 completely different vacations.
Year-round renter	It would be sad if MVOA cancels the sunset concerts. It pumps a lot of taxes in the village core.
Year-round renter	I am required to live here so I do. I would not choose to live in this community. If you do not make a six-figure salary you cannot live comfortably here. Everything is overpriced. A comparison-check of groceries tells the story. $175 was spent at Walmart; the same items were priced in Mtn. Village and totaled $397. $350,000 is not affordable housing. The mortage alone is more than my entire months wages. If you have children and they don't ski there is nothing for them to do. This community thrives to apieze the wealthy tourists but has a "screw the worker" attitude when it come to the people who keep this town running. Examine your employee turnover rate and ask your self why these people aren't staying.
Year-round renter	Would love to have year-round business such as university and wholistic health care businesses invited into the business community. Schools with curriculum focused on sustainability, culinary arts and wholistic health would be most appropriate.

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Year-round renter	Speed limits too low. Need for more channels on MV cable. More enforcement of animal control (cleaning up and ticketing those who don't). Need for more affordable casual dining. Need for clothing stores not just skiing or biking stuff, affordable for those making less than $30,000 a year. More free, locals only parking near village core.
Year-round renter	I would like to spend my senior years of life in the scenic, majestic Mountain Village Telluride area. However, along with later years of a healthy quality life, comes the mandate for cardiovascular aerobic fitness. My second choice to maintain fitness is cross-country ski touring, for which Mountain Village provides an excellent facility (when properly groomed). My first and best choice is the use of specific aerobic workout equipment. The Peaks Hotel has the adequate space and equipment, but I am a Mountain Village employee living in the Village Court Apartments. Therefore I pay approximately half of my net income back to MV for rent, so the cost to use the Peaks is not possible for me. I believe a recreation facility with fitness equipment needs to be taken off of the back burner and put on the front. I'm running out of time.
Year-round renter	The seasonal "manmade" trail from the Market to the firehouse is tricky. Walking on the road from Market to Firehouse is dangerous. Build a paved trail! We live in the upper buildings of VCA and do not walk the "long!" way from market-parking structure-lower VCA to get to upper VCA...especially in winter. Chlorine taste/smell in the water.
Year-round renter	I can't buy all my food in this valley! Too expensive, trips to Montrose or Cortez City Mkt.
Year-round renter	Would like to be more informed on things happening around MV. Don't know how to go about doing that. Please let more people know about Waste Management taking plastics 1-6 now. Really wish more people would recycle. Thank you for all that you do.
Year-round resident homeowner	Need leash law throughout town. Enforcement of current dog regulations. Need more parks and playgrounds. Need 4 season sidewalks and better care and snow removal of the current ones. Street water flows over Meadows sidewalk and freezes. Encourage pedestrians with sidewalks that are dry and safe. Chondola access is miserable -they don't shovel the sidewalks, trucks and vans park on them, there is constant ice and lighting and signage is poor, ice and snow fall from roof onto the sidewalks and is not cleared. Want paved sidewalk between Meadows and core. Gondola stations should be clean and free of clutter. Big brush that brushes the streets kicks up dust. Enforcement of immigration status occupying rental housing. Enforce DRB, parking, etc. codes. Some homes have a lot of extraneous lighting and others have unlit house numbers. Need vegetation on street shoulders to look good, prevent weeds, and reduce dust. Streets should be completely cleared of snow, not just pushed to withint 3-4 feet of edge where it melts and freezes across the street reducing pedestrian access and destroys the blacktop. Traffic in high-density-residential Meadows can be reduced with increased bus service and non-
Year-round resident homeowner	The reason I don't use the MV grocery store, is that the prices are not accurate when you go to check out. I feel that I am being taken advantage of every time I set foot in that store. Not the way to treat a local!
Year-round resident homeowner	Make the area by the firepit more appealing - it looks like a big stone area with no character. Bring back landscaping and large aspen and fir trees and make it look more like a quaint European village (Beaver Creek) with walkways around to shops and cafes - make around every winding brick sidewalk a surprise, not the brick jungle that it is now.
Year-round resident homeowner	It is important to maintain Dial-a-Ride services because there are homeowners that have purchased based on the service. We have purchased here assuming our taxes are high to pay for the Dial-A-Ride and gondola services.

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
Year-round resident homeowner	Join all govt. under one umbrella for efficiency. Work with Telluride to promote tourism and festivals. Reconfigure Heritage Plaza for more attractive look. The bungee jumper is unattractive and the fire pit is out of scale for the mass of buildings around it.
Year-round resident homeowner	How about educating people to purchase items/groceries that have more ecological packaging? Then we don't have to recycle as many items. Recycling in Telluride and MV is not good. I understand that it's difficult to transport to a facility. Makes me wonder if it all just goes into some garbage landfill site.
Year-round resident homeowner	Many more doggies refuse bags and receptacles. More sidewalks/bike path to connect to the "main" paths (like off MV Blvd, onto Russell, down Double Eagle and all of Adams Ranch Rd.). Develop a green area near Telluride apartments. More summertime Elk Pond activities. The MV liquor store is too expensive. The MV grocery store is poorly stocked and has gone downhill since it opened. Management appears not to care about your opinion.
Year-round resident homeowner	Views, nature, quiet should be #1 priority. Fiscal responsibilities #2. Majority of revenue comes from homeowners, they should be the number 1 priority. Telski is key to region and should be #2. Other local businesses a distant 3rd. WAY too much time and money spent there as they have loudest voices since here all the time.
Year-round resident homeowner	Postal area poor! Doors falling off recyling drawers. Why didn't you put elbow-elevator button at Heritage garage + slipper, door to small carrying skis. Summer trail rides. Better groomed trails. Why do people walk on the road when sidewalks are so close to them?! Better signage for using sidewalks. More open space. Why - do you wonder about a zip line yuck, have you tried it! More recyling!! How about commercial one next to Mt. Market? Lock after hrs. Bring Mt. V. Free Box Back.
Year-round resident homeowner	Please work toward a rec center with a pool and consider collaborating with the library. The library could provide children's activities and cultural events. What a great partnership! I love the trails.
Year-round resident homeowner	Mountain Village needs to allow gates on residential private properties
	I love it there. I get to relax, breath fresh air and get some exercise. I like the free services in place now. I am not as well equiped to suggest long term development and how to finance it. I will sign up for emailing from the Town Website.
	I would love to see the recycling programs improved (HOAs are uninformed on what's accepted), I'd love for MV to actively reduce its GHG emissions, esp from homes, I'd like to see a leash law and have it enforced...maybe a social event for residents in summer held in the meadows ?
	It was impossible for me to estimate my expenditures - I travel back and forth to California and to New York City!- for week's at a time! Sometimes, I eat out for all meals. However, I do purchase most of my staples at the Market at Mt. Village. Which I think is a wonderful market, both for food and wine!
	keep the summer concerts

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
	MV does not have unlimited resources, neither funding or town staff. To that end, concentrate limiting what you take on and doing that well. Don't let resident and staff 'good ideas' result in distraction form the big issues at hand. I just spend hours correcting typos and other errors in a trash removal contract for a commercial building in the core, hours of MV staff time was spend on this too, yet neither I or MV will gain anything from the contract - it's for the same amount and terms that were in place on a month - to - month basis. Why? to justify staff? Even the recitals in the contract refer to 'easing the Building Departments burden', yet the spent more time on the contract then they have on 'enforcement' with this building. - Yet the house down the street from me had garbage collection enforcement violations for years, without any real enforcement, and we've had a bear shot only an hundred yards away. Don't create more programs, code revisions and regulations without timely enforcement of the existing.
	We would really like to stay in the Village, but housing prices are so high. We don't want to continue living in an apartment, but there is literally no way that we could ever afford a house here, even though we both have decent jobs. We would really appreciate an effort towards permanent low-income housing.
	The recycling program is terrible. They are very picky about what they pick up and we routinely throw out many itms that are recyclable but don't fit the programs narrow definition. The programs in our previous towns were much more flexible. Also, can we expand the Chondola capacity and hours of operation.
	Summer music events needs to be maintained and expanded. MV should not be a free parking area for Telski and town of Mountain Village. MV should always be smaller and more specialized than the town of Telluride. Lack of a first-rate golf facility is a serious weakness for this destination resort community.
	We can not fill the current rental beds we have. Hotels and lodging companies are struggling. Please do not allow any more hotels to be built within the next five years, at least.
	I used to be a full-time resident, and have since moved away. I understand the challenges the community is up against. However, let us exercise caution in dealing with the issues. I feel that "hot beds" are a necessity, but if we go overboard with large buildings we may actually hurt the community. Once the open space is gone, there is no turning back.
	The BEST service that has been added is The Yurt at the Gondola Plaza! I can take the elevator up. They store my skis and boots, put them out on the slope for me. It is a GREAT service. We used to be able to be shuttled around on the carts but that was eliminated rather quickly. We need some sort of regulations as far as what can go under a condo. We have a person that feels it's OK to play and record music right under my neighbor. I can hear it on the 4th floor. It is very upsetting to my neighbors! If someone wants a recording studio under a condo, they should have to soundproof it. Zoning laws of some sort. Height restrictions on buildings, a master plan. Studies done when projects are started so they don't damage other surrounding buildings.
	It would be great to have a rec center. There aren't any activities for children if the weather is bad. Many of us drive to Cortez/Durango for their rec center. It would be nice to have affordable fitness facility in MV. The sunset concerts were awesome! We looked forward to meeting our friends each week.

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
	I feel very strongly about the Village bias toward retail activity in the core. There is talk about tearing out the golf practice facility for employee housing. There is talk about ripping up the 18th hole. 1) If the golf course is degraded, I will have no choice but to leave MV - it is the reason we summer there. I will find some other place to spend summers. 2) No matter what you do, retail will never be strong in the core without convenient surface parking adjacent to the stores - period. 3) If I wanted to live in a noisy and crowded area, I would have bought in Telluride. 4) Basically a couple of stores have hijacked the decision making process and are expecting second-home owners like us to subsidize their operation.
	We would like to see Mountain Village become more vibrant, and successful for retailers and businesses. If the village could replace the necessity to drive in to Telluride, we would never leave. The restaurants are marginal unfortunately, so we take our business (support of restaurants) into town.
	We are quite happy with the Mountain Village area. We are very concerned about it losing its charm through overdevelopment, e.g., more vehicles, amphitheater.
	I believe that the MV core is well designed. I would like additional restaurant options and a future fitness center. I strongly oppose additional development that would eliminate our open spaces and the quiet/relaxed MV lifestyle. For example, no amphitheater, no projects to increase vehicle/traffic density and its pollution, no geriatric lazy river. Look forward to receiving the town mailings and participating in the community.
	Strongly against community rec center, it is a gross financial drain on the part-time community in a down economy
	Stop tearing up the roads with the snowplows. CHARGE to park in the decks! Stop trying to get more T-shirt sales through your retail "push." More consultants study this every year for you guys costing us money. Cut out the unneded expenses in the M.V. Cut STAFFING as most of these services unneeded. Consolidate services. Pave the 400 and up block of Benchmark Drive. Don't allow sales of POT in the M.V.
	The speed mountains installed near crosswalks in the Meadows have increased the speed on the remainder of the roads. Thus they have made it more dangerous. Also, in the summer they have become a play area for dirt bikes and mountain bikes where they use them as a jump. One is at a blind intersection where there have been a number of close calls with cars and peds. The speed mountains don't work at Wall Mart and they certainly don't work here. Plowing around them is slow and poor and many items fall off vehicles at their location. 2) This is a resort town, all efforts should be made to bring more visitors and make their stay pleasant.
	Dial a Ride is a GREAT service, don't let it go away. We need events weekly in the village core, spectacles, street performers, something to make the village not a ghost town. We are losing the character of the village core with large buildings and confusing spaces.
	Summer trail up Teddy's Way; forestry management on lower basin and on Lift 10 (controlled burn/thinning); think year-round vs. seasonal; signage to protect XC ski tracks from walkers; plow MV BLV early in storms; land MTV BLV; put icy road signs early on BLV; reflectors on BLV bridges; fix elevators/general maintenance; mark TH for Ridgetrail

Which of the following best describes you?	Do you have any further comments or suggestions for Mountain Village?
	I believe that Mountain Village is run not for the homeowners, but for Telski and other real estate developers. It is getting worse. The principal issue facing MV is transportation. Without improved transportation, occupancy will remain low and MV will remain desolate. Building more big empty buildings won't make MV a better place. It does no good to formulate a 15-year plan if you don't follow it, and decide after 5 years you need more "hot beds."
	I would like the open space kept with trees and foliage and never have to worry about commercial development on the presently designated "open space." I love the present Dial-a-Ride. It is wonderful for me and my guests. They are always impressed with this great service.
	There are not enough rec activities other than skiing and golf
	We lack community. Enstate a law that requires 2nd home owners to have a year-round on-site caretaker. In my opinion this would help build more community in MV. Also, recreation center. If you do decide to design/build another rec center consider the following: people who like to swim, purchase or have a signed agreement prior to designing a lot specific center. Your spending our money (the taxpayers) so spend it wisly. Think before you spend!
	I am not in favor of spending lots of money on local amenities outside of those visitors and Mountain Village residents need for enjoying the summer and winter activities we all come to the mountains for
	The Village Core established as a pedestrian village where you leave your car behind is a good idea, executing it OTOH is another ball of wax. Try picking up a pizza at Crazy Elk and still get home before it's cold. I deliver medical equipment around the region and some addresses are a lost cause and I'm forced to meet the client on the street as their address is impossible to find. The architecture in the core is medieval. Public access and vulnerability is restricted and maximized in tht order. Nobody wants to hang out where you cannot get, and you are subject to vulnerability.
	Market-Market too expensive! Need new trails Meadows to parking structure. Plow drivers driving too fast in Meadows area. No one heeds stop sign at Meadows parking. Trees and wetlands have been destroyed by plows clearing Meadows parking lot - no response from gov.
