Revised 2.16.18

The Planning & Development Service Department is here to assist you with your conceptual worksession request pursuant to the Community Development Code (CDC).

This publication outlines the Conceptual Worksession process of the CDC and also provides the submittal requirements for such development applications.

Contents of the Publication

This publication is intended to address the submittal requirements for a worksession consistent with the Conceptual Worksession Process, which is a required process for certain development applications, such as a rezoning or PUD applications. However, it is each developer's responsibility to review the CDC and any associated regulations to ensure a full understanding of the conceptual worksession process.

Development Review Process

Conceptual worksession submittals shall follow the process and procedures set forth in Chapter 17.4 of the CDC. The worksession process generally consists of the following steps:

- Step 1:** Pre-submittal Meeting
- Step 2:** Conceptual Worksession Submittal
- Step 3:** Planning Division Completeness Check
- Step 4:** Referral and Review
- Step 5:** Planning Division Follow-up Communication
- Step 6:** Plan Revisions
- Step 7:** Schedule DRB and, if applicable, Town Council Public Meeting(s)
- Step 8:** Publish Review Authority Agenda; and
- Step 9:** Conduct Public Conceptual Worksession

Conceptual Worksession Submittal Requirements:

The following forms, information and plans will need to be submitted in order to have a complete conceptual worksession submittal. Situations will occur when all of the listed submittal requirements will not be required and where items not listed as submittal requirements will be required in order for the Town to have sufficient information to fully evaluate the impacts of a proposed development. The Planning Division is therefore authorized to determine, based on the nature of a proposed development, whether to waive submittal requirements or require additional submittal requirements.
