GETTING AROUND

Situated at 9,500 feet in the heart of the San Juan Mountains, the Town of Mountain Village was incorporated in 1995. The following year, Mountain Village officially opened the three-stage gondola to the public, connecting with Telluride. Mountain Village Center is the town's pedestrian-friendly business district and downtown area. Here you will find accommodations, the Telluride Conference Center and Club Red, professional services, public plazas, restaurants and bars, and retail. Mountain Village Center also provides direct access to the ski resort base and summer and winter trailheads. For more information, visit townofmountainvillage.com.
