Buongiorno. Please let me introduce our traditional Pizzeria. This is the first and only Italian pizza oven in Mountain Village. Cooking at 9500 Feet and at 600° Fahrenheit requires special technique and second by second supervision. We apologies if we are not able to make any modifications or custom designed pizzas. Enjoy our food like in Italy. In our simple, authentic Pizzeria we use three types of prime quality mozzarella cheese. Like a traditional pizzeria in Italy we absolutely do not offer or serve Parmigiano on top of pizza. Buon Appetito!
