### STRATEGIC PRIORITIES

**EGNAR SLICKROCK FIRE PROTECTION DISTRICT  
COLORADO**

**LETTER OF INTENT TO PARTICIPATE**

August 11<sup>th</sup>, 2022

Shannon Armstrong  
Emergency Manager, San Miguel County  
684 CR 63L  
Telluride, Colorado 81435

Dear Emergency Manager,

In accordance with the Federal Emergency Management Agency's (FEMA) Local Hazard Mitigation Plan (HMP) requirements, under 44 CFR §201.6, which specifically identify criteria that allow for all hazard mitigation plans, the Egnar/Slickrock Fire Protection District (EFPD) is submitting this letter of intent to confirm that our jurisdiction has agreed to participate in the All Hazard Mitigation Planning effort.

Further, as a condition to participating in the mitigation planning, EFPD agrees to meet the requirements for mitigation plans identified in 44 CFR §201.6 and to provide such cooperation as is necessary and in a timely manner to the EM Coordinator to complete the plan in conformance with FEMA requirements.

The EFPD understands that it must engage in the following planning process, as more fully described in FEMA's *Local Mitigation Planning Handbook* dated March 2013 including, but not limited to:

- Identification of hazards unique to the EFPD and not addressed in the master planning document;
- The conduct of a vulnerability analysis and an identification of risks, where they differ from the general planning area;
- The formulation of mitigation goals responsive to public input and development of mitigation actions complementary to those goals. A range of actions must be identified specific for each jurisdiction;
- Demonstration that there has been proactively offered an opportunity for participation in the planning process by all community stakeholders (examples of participation include relevant involvement in any planning process, attending meetings, contributing research, data, or other information, commenting on drafts of the plan, etc.);
- Documentation of an effective process to maintain and implement the plan;
- Formal adoption of the All Hazard Mitigation Plan by the EFPD's governing body.

Therefore, with a full understanding of the obligations incurred by an agreement between the EM Coordinator for San Miguel County and the EFPD, I, Connie Sprague, commit EFPD to the All Hazard Mitigation Planning effort.

Executed this \_\_\_ day of August, 2022.

# Colorado Emergency Preparedness Assessment San Miguel County (2022)

**CEPA Summary:** San Miguel County has experienced leadership in response agencies, dedicated volunteers, strong community involvement, and an updated emergency operations plan (EOP). The county would like to improve focus on employee retention, expanding depth of knowledge, increasing the number of exercises, prioritizing employee tasks, determining roles and responsibilities, and enhancing communication. A few identified opportunities include increased interest in training and elected official involvement in exercises, partnerships with critical infrastructure partners, and matching response support with the pace of development. San Miguel County would like to place more effort on maintaining skilled personnel and volunteers. (24 May 2022)

General Information		Response Agencies		Additional Information	
Population	8,074	Law Enforcement Agencies	4	Hospitals	0
Square Miles	1,286.6	Fire Departments (Volunteer FD)	2(1)	Congregate Housing Facilities	1
Localities	5	EMS Transport Providers	2*	Colleges/Universities /Schools	4
Declared Fed/State Disasters	5	Total # of Response Agencies	9		

## Capability Assessment

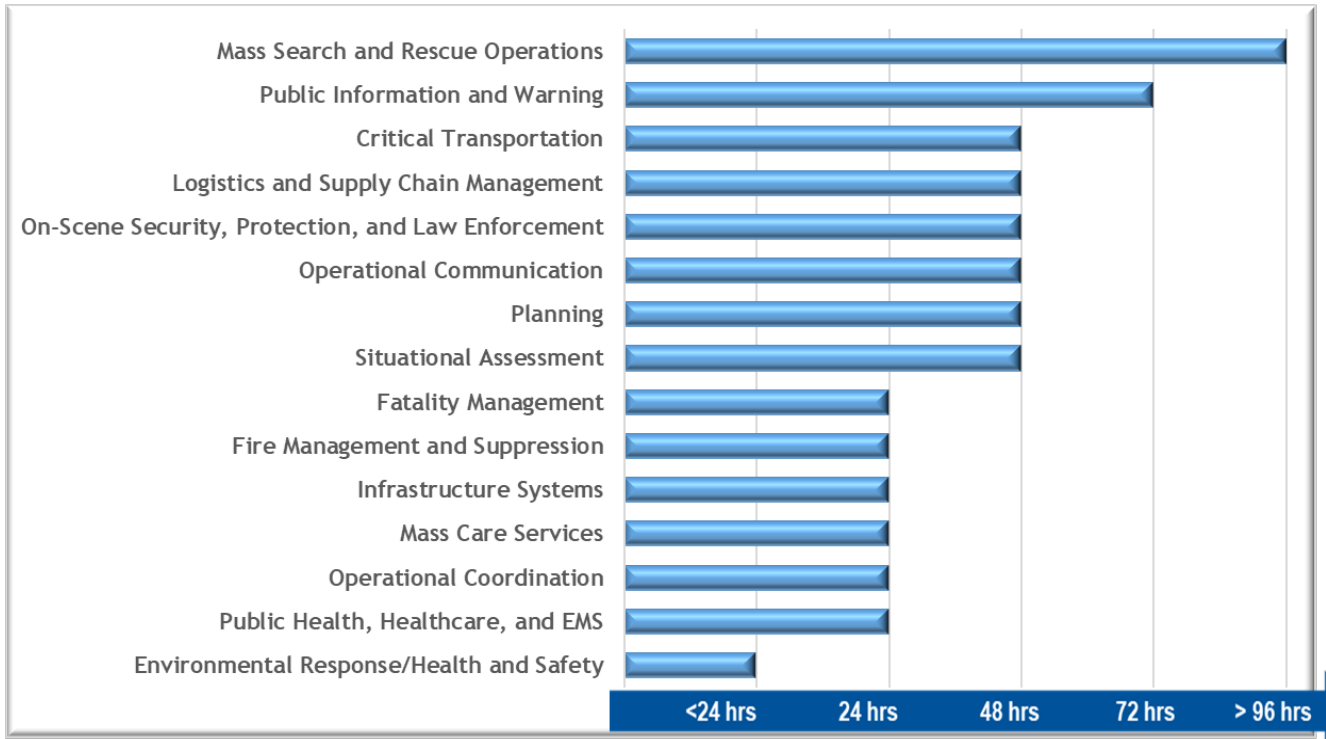

## POETE Breakdown

*The overall average of each POETE element across all Core Capabilities*

Planning	Organization	Equipment	Training	Exercises
2.9	2.8	3.1	2.4	2.3

# San Miguel County 2022 CEPA (continued)

## Response Capacity

## Anticipated Resource Needs

<ul style="list-style-type: none"> <li>Multi-mission aircraft (MMA) and other aerial firefighting resources</li> </ul>	<ul style="list-style-type: none"> <li>Communication, maintaining health, independence, support/services/self-determination, and transportation (CMIST) response team or coordinator</li> </ul>	<ul style="list-style-type: none"> <li>Cellular on light truck (COLT)/Cellular on wheels (COW)</li> </ul>
<ul style="list-style-type: none"> <li>Fiber redundancy</li> </ul>	<ul style="list-style-type: none"> <li>Mutual aid agreements (MAAs)</li> </ul>	<ul style="list-style-type: none"> <li>Portable generators</li> </ul>
<ul style="list-style-type: none"> <li>Local incident management team (IMT)</li> </ul>		

## Grant Reliance

Seven (7) Core Capabilities are “Mostly” reliant on grant funding

<ul style="list-style-type: none"> <li>Economic Recovery</li> </ul>	<ul style="list-style-type: none"> <li>Operational Communication</li> </ul>	<ul style="list-style-type: none"> <li>Public Health, Healthcare, and EMS</li> </ul>
<ul style="list-style-type: none"> <li>Risk-Disaster Resilience Assessment</li> </ul>	<ul style="list-style-type: none"> <li>Fire Management and Suppression</li> </ul>	<ul style="list-style-type: none"> <li>Natural and Cultural Resources</li> </ul>
<ul style="list-style-type: none"> <li>Environmental Response/Health and Safety</li> </ul>		

Thirteen (13) Core Capabilities are “Somewhat” reliant (<50%) on grant funding

Twelve (12) Core Capabilities are “Not at all” reliant (0%) on grant funding

## Risk Assessment

The most consequential threats and hazards faced by the county include: drought, wildfire, avalanche, animal disease, dam and levee failure, infrastructure failure, pandemic/epidemic, pest infestation, and power failure.
