**17.4.3. Development Review Procedures**

G. *Step 7: Schedule Review Authority Public Hearing*

2. *Class 3, 4 and 5 Applications.*

a. A public hearing shall be scheduled with the review authority in accordance with this section if the Planning Division determines that a class 3, 4 or 5 development application has met the following public hearing threshold requirements:

- i. The development application has addressed any required plan revisions;
- ii. The applicant has amended the development application to address any discretionary plan revisions or provided a written narrative why the development application does not need to be amended to address such discretionary requirements; and
- iii. The development application contains sufficient detail to allow a thorough review of the proposal by the review authority per the applicable requirements of this CDC and the applicable criteria for decision.

iv. For Class 3 applications, an Initial Architecture and Site Review hearing has been scheduled prior to the scheduled date for the Final Review public hearing, **unless otherwise authorized elsewhere in this CDC under Section 17.5.6 as a single Final Architecture Review.**

b. Certain class 5 applications are exempt from the need to conduct a public hearing as outlined in step 10 and the public hearing noticing requirements.

c. Class 3 applications will require a two-step process consisting of an Initial Architecture and Site Review hearing, followed by a public hearing for ~~final~~ **Final Architecture Review** approval at a subsequent Design Review Board meeting, **unless otherwise authorized elsewhere in this CDC under Section 17.5.6 as a single Final Architecture Review.**

J. *Step 10: Review Authority Public Hearing or Meeting.*

2. *Class 3 Applications.* ~~Prior to taking any action on a class 3 development application~~ **Unless otherwise authorized elsewhere in this CDC under Section 17.5.6 as a single Final Architecture Review,** the DRB shall hold at least one (1) Initial Architecture and Site Review hearing and at least one (1) Final Review public hearing held at a subsequent DRB agenda for the purpose of considering recommendations from the Planning Division, the Design Review Board, other agencies and testimony from the applicant and the public.

K. *Step 11: Review Authority Action on a Development Application.*

2. *Class 3 Applications.* The following options are available to the review authority when acting on class 3 development applications:

a. *Initial Architecture and Site Review.* The Design Review Board shall review and approve an Initial Architecture and Site Review application before the application is allowed to proceed to a subsequent agenda for a public hearing and Final Review, **unless otherwise authorized elsewhere in this CDC under Section 17.5.6 as a single Final Architecture Review.** However, the public hearing and Final Review may be noticed concurrently with the Initial Architecture and Site Review application and such public hearing shall be continued in the event the Sketch Review application hearing is not approved before the noticed date for the Final Review public hearing

### 17.4.11. Design Review Process

#### C. Review Process

3. *Class 3 Development Applications.* All other Design Review Process development applications not listed above shall be processed as class 3 applications. Class 3 applications consist of two steps as outlined below, **unless otherwise authorized elsewhere in this CDC under Section 17.5.6 as a single Final Architecture Review.**

- a. *Initial Architecture and Site Review.* The intent of the Initial Architecture and Site Review is to allow the DRB a preliminary review of the composition of the project to determine whether it is responsive to the Town Design Theme; fits within the context of the existing neighborhood and to identify potential variations. The review is not a public hearing **and no action will be taken.**
  - i. *Initial Architecture and Site Review Disclaimer.* Any comments or general direction by the DRB shall not be considered binding or represent any promises, warranties, guarantees and/or approvals in any manner or form. An Initial Architecture and Site Review shall not be construed as a comprehensive review of the proposal under discussion, and as such, additional issues and/or concerns will most likely arise as part of the final review process.
- b. *Final Review.* Held on a subsequent agenda after the Initial Architecture and Site Review, the Final Review is a public hearing to determine the project's consistency with the Town Design Theme and compliance with the CDC.
